In early October, 1966, negotiations were conducted with representatives of the International Department, Central Committee, Communist Party of the Soviet Union (CPSU), for the reimbursement of fares paid by the Communist Party, USA (CP, USA) for individuals traveling to the Soviet Union as invited guests of the CPSU. Based on such negotiations, the CPSU turned over to a representative of the CP, USA a sum totaling \$12,403.50 which they noted cleared their books and as of that time the CPSU did not owe the CP, USA one cent for fares. The following information was furnished by a source which has furnished reliable information in the past.

The Siberian Division of the Soviet Academy of Science, which is located in Novosibirsk, USSR, was created in 1957 as a result of a decision made at the time of the 20th Congress of the Communist Party of the Soviet Union.

The Siberian Division of the Soviet Academy of Science maintains seventeen separate institutes. These institutes include three in the field of physics, three in the field of mechanics, and two in the field of mathematics. As part of the Academy, two computer centers are maintained, one of which deals with theory and the other with practical application.

The Academy works closely with Novosibirsk University and provides additional scientific training to university graduates. The present head of the Academy is a Mr. Laurytyev, who visited the United States several years ago.

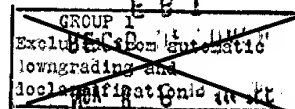

The Academy conducts research for industries in Siberia. At the present time, it is conducting research in exploding and creating "deep metals," which is similar to the type of research being conducted in the United States by the Dupont Company. This process of exploding and creating "deep metals" was described as a process by which metals penetrate each other. The principal aims of the Academy are finding ways to utilize the country's natural resources, while at the same time using them for the benefit of the people and the development of the country.

Subject: FOREIGN POLITICAL MATTERS - ROMANIA

A source which has supplied reliable information in the past has furnished the following:

In October, 1966, Gus Hall, General Secretary, Communist Party, USA, visited Romania. While in Romania, Hall was given a briefing by Alexandru Birladeanu, First Deputy Chairman of the Council of Ministers of Romania. The essence of this briefing was as follows:

The Communist Party of Romania (CPR) now has 1,600,000 members. Workers make up 40 per cent of the CPR membership, while peasants make up 32 per cent and intellectuals make up 28 per cent. CPR members include one-third of all the professors in Romanian academies and one-half of the professors in Romanian universities.

Approximately 75 per cent of the CPR's time is devoted to economic problems. The major task facing the CPR is the improvement of the standard of living of the people. Romania is a small country, but it has substantial natural resources. Up to the present time, Romania has been a reservoir for raw materials. Romania has had to export 9 tons of raw material in order to import one ton of finished or semi-finished material.

At the end of World War II, Romania had 10 million hectares of tillable land with only 4,500 tractors available for use. Today, Romania has 80,000 tractors in operation, all manufactured in Romania. The mechanization of agriculture freed large labor forces and presented the problem of what to do with this excess labor. Emigration from Romania would

have looked bad for "socialism," so efforts were made to industrialize the country. This is the goal of the economic policy of Romania. This goal is being reached. Last year the rate of industrial growth in Romania was 14 per cent over what it was the previous year. However, the standard of living of the people of Romania cannot be elevated without raising the productivity of Romanian labor. Today, labor productivity in Romania is low, perhaps five or six times lower than labor productivity in the United States.

Romania is now producing 13 million tons of oil per year. This is about 6 per cent of the total oil reserves in the country. Romania is currently producing 4 million tons of steel a year, and it is hoped that this can be increased to 6 million tons by 1970.

Today, Romania has approximately 130,000 students enrolled in higher education, which averages out to 70 students for every 10,000 inhabitants. Sixty per cent of these students are attending school on state scholarships.

JAMES E. JACKSON

In recent conversation with such people as Nikolai V. Mostovets, Head of the North and South American Section, International Department, Central Committee, Communist Party of the Soviet Union (CPSU); Igor Mikhailov, assistant to Mostovets; and Timur Timofeev, Director of the Institute of International Workers Movement, Moscow, USSR, the following was learned:

James E. Jackson, former Editor of "The Worker" and a leading member of the Communist Party, USA (CP, USA), has a girl friend residing in the Soviet Union about whom he is quite serious. He is now trying to go to the Soviet Union and has already directed private letters to Timur Timofeev requesting that he be employed by the Institute of International Workers Movement in Moscow. He is requesting such employment ostensibly so that he can come to the Soviet Union to write and undertake private research, but actually he desires to be near his girl friend. Jackson also has been writing and sending a number of articles to the Soviet Union, some of which have already been published in periodicals there, and is leaving the royalties for these to accumulate in hopes that when he gets to the Soviet Union he will have additional money available to him.

At the present time, there is some question as to whether Gus Hall, General Secretary of the CP, USA, will allow Jackson to go to the Soviet Union because Hall is aware of the foregoing.

GUY OWENS, SON OF HENRY WINSTON, CHAIRMAN OF THE  
COMMUNIST PARTY, USA

In discussions held in September, 1966, the following was learned:

When Guy Owens, son of Henry Winston, Chairman of the Communist Party, USA (CP, USA), was in the Soviet Union, he had a girl friend who worked in the Communist Party of the Soviet Union (CPSU) High Party School. This girl was very much in love with Owens. When Owens, who is a mental case, left the USSR to return to the United States, this girl friend became very ill and threatened suicide. The CPSU was somewhat embarrassed over this incident.

REMARKS OF GUS HALL, GENERAL SECRETARY OF THE  
COMMUNIST PARTY, USA, ON LACK OF COMMUNICATION  
BETWEEN COMMUNIST PARTY OF THE SOVIET UNION AND  
COMMUNIST PARTY, USA

In September and October, 1966, Gus Hall, General Secretary, Communist Party, USA (CP, USA), while in Moscow, USSR, held some discussions with leading representatives of the Communist Party of the Soviet Union (CPSU). At the time, Hall complained that in the past the CP, USA had lacked advance information and communication from the CPSU on certain matters and events which had embarrassed him and the CP, USA. Hall was referring to such matters as the removal of a few years ago of First Secretary Nikita S. Khrushchev, which the CP, USA first learned about in the press and on the radio. As a result of having learned of this action from the press and radio, Hall told the Russians that he was unprepared to meet press inquiries in the United States. In discussing this matter, Hall stated that the CP, USA "wasn't going to be at the mercy of the 'New York Times' on such matters in the future," and he wanted some guarantees that similar incidents would not occur in the future. According to Hall, only on rare occasions has the CPSU advised him of some pending action before the Western press has reported it. Even in those cases where he has had some advance information, the time element has been extremely brief.

After having raised this matter, Hall was given some assurance that efforts would be undertaken to work out this problem and prevent a repetition of it in the future.

LEM HARRIS TOUR GROUP TO USSR,  
NOVEMBER 2-23, 1966

X  
Lem Harris, a Communist Party, USA (CP, USA) member, organized a special tour scheduled to leave New York City on November 2, 1966, and return on November 23, 1966. This tour group was scheduled to visit Moscow, Leningrad, and Kiev as well as some other points in Europe.

In September, 1966, the matter of Lem Harris tour group was discussed with representatives of the North and South American Section, International Department, Central Committee, Communist Party of the Soviet Union (CPSU). As a result of these discussions, it was agreed that the Harris tour group, because of its Party leadership and Party connection, would be afforded treatment in the Soviet Union a little different from that given an ordinary tour group or tourists. They also advised that they would make some effort to arrange some of the desired visits and meetings that Harris had requested.

MATTERS BEING HANDLED FOR THE COMMUNIST PARTY, USA,  
DURING TRIP TO PRAGUE, CZECHOSLOVAKIA, BY GEORGE  
MEYERS, MEMBER OF THE NATIONAL BOARD, COMMUNIST  
PARTY, USA

George Meyers, a member of the National Board of the Communist Party, USA (CP, USA), left the United States via Air India Airlines on October 27, 1966, en route to Prague, Czechoslovakia, where he was to be the official CP, USA delegate to a round table conference devoted to the problems of activity of the revolutionary forces in developed capitalist countries, to be held November 1 through 3, 1966, in Prague, Czechoslovakia, sponsored by the "World Marxist Review," a theoretical organ of the international communist movement, headquartered in Prague. The decision to send Meyers to this meeting was made by the Secretariat of the CP, USA without consulting Gus Hall, General Secretary of the CP, USA, sometime before Hall's return to the United States on October 23, 1966. Hall was critical of the selection of Meyers but eventually consented to this selection in the afternoon of October 24, 1966. (X)

Before his departure, Meyers was entrusted with a number of CP, USA confidential documents which he was instructed to deliver to several individuals in Prague. The first matter involved Mary Kaufman, a lawyer handling legal matters for the CP, USA. Meyers was furnished a number of letters concerning Kaufman which were to be delivered as follows: The letter to the Central Committee, Communist Party of Czechoslovakia (CPCZ), was to be delivered to officials of the "World Marxist Review" who would insure that it reaches the Central Committee, CPCZ. The letter to the Central Committee, Socialist Unity Party of Germany (SUPG), was to be delivered to a Mrs. (first name unknown) Berg, a member of the Central Committee, SUPG, assigned to the staff of the "World Marxist Review." The letter to the Central Committee, Communist Party of the Soviet Union (CPSU), was to be delivered to Alexander Tuchin, Protocol Chief, at the "World Marxist Review" to be relayed through the USSR Embassy in Prague to Moscow, USSR. The texts of these letters are set forth below: (X)

"The Communist Parties of Great Britain, France, and Italy are of the opinion now that it would not be bad to hold a conference of world Communist and Workers Parties. It would be best to hold this idea forth without prodding. Some Parties now believe that the Chinese do not have to be present at such a meeting, although in the past they thought there could be no world meeting without the Chinese.

As a result of the receipt of the above letter, the CP, USA had prepared a letter to the BSWP affirming Kellar's status, which was being sent through Meyers. The text of the CP, USA letter was as follows:

"This is to verify that Comrade Morris Kellar has been a member of the Communist Party and engaged in revolutionary activities in the United States for over thirty-five years. Comrade Kellar worked amongst the unemployed during the great depression in Chicago together with Comrades Lightfoot, Shields and other comrades. In the middle 1930's when the organizational drive to form a union in the steel industry took place, Comrade Kellar was most active as an organizer in the Chicago-Calumet area. At the same time, he was a regional director of the 'International Workers Order,' a progressive fraternal organization, in the steel region in the Indiana Harbor, Gary, Hammond area. He was also a steel organizer in the Wisconsin area which included Milwaukee and Racine. He was a member of the Agit-Prop and Educational Committee, as well as the Language Bureau in the Chicago District, Communist Party, U.S.A.

"He was last active in California, particularly in Richmond, where he participated in all mass campaigns in shipyards, in the Kaiser plants, etc. He was considered an active Party builder.

"He worked with Mickey Lima, who is the Secretary of the San Francisco area and a member of the national leadership of the Communist Party.

"With fraternal greetings,

A letter similar to the above had been requested of the CP, USA by the CP of Romania concerning a Nick Kish whose address was given as follows: Bucuresti, Str. Christian Tell. Nr. 23, Rai. 30 Decembrie S. R. Roumania.

Helen Winter had caused such a note to be prepared at the National Office of the CP, USA to be transmitted through George Meyers, but the text of this note is not available.

When Meyers was set to depart for Prague, he was given a note of instructions detailing whom he should see and speak to including phone numbers, etc. The text of this note was as follows:

"When you get to Prague you will please give the note addressed to the SUPG to comrade Mrs. Berg, a member of the CC of the above party. She has an office in the World Marxist Review. If you cannot find her, ask the other comrades to help you. If she is not available for one reason or another, would you see to it that this note gets to the German Embassy for immediate dispatch to the CC of the SUPG, in Berlin, GDR. The other note addressed to the CPSU should be given to comrade Tuchin. If he is not around give it to another leading Soviet comrade and ask them to send it on to Moscow immediately.

"If you have language problems while in the WMR see if you can locate comrade Shaarif. He will help you. Also give him regards."

George Meyers was given \$800 by Helen Winter to cover the expenses of his trip to Prague and return. In addition, Gus Hall gave Meyers \$200 to cover expenses of a stop in Great Britain and Ireland where Meyers wished to make contacts with the CP of Great Britain, the Irish Workers Party, and the CP of Northern Ireland. While in Great Britain, Meyers intended to contact John Williamson of the CP of Great Britain to whom, Hall has stated, Meyers has been writing "silly, naive letters." Meyers' desire to visit Ireland is believed motivated primarily by the fact that his mother was Irish rather than any Party business to be conducted there.

The following information was supplied by a source which has furnished reliable information in the past,

During 1965, the Central Committee, Communist Party of the Soviet Union (CPSU), made a decision to set up a new organization within the CPSU for the purpose of maintaining closer ties with fraternal communist parties throughout the world. The new organization would have the tasks of trying to hold the fraternal parties together and laying the basis for a future international organization that could eventually become a Communist International.

In the Fall of 1966, the CPSU established the Institute of International Workers Movement in Moscow, Russia. Timur Timofeev, formerly Assistant Director of the Institute of World Economy and International Relations, Soviet Academy of Science, has been appointed head of the Institute of International Workers Movement, which is officially considered as having direct responsibilities to the Central Committee of the CPSU. In order to operate the Institute, Timofeev has been given a budget which will enable him to eventually employ approximately 380 persons. At the present time, 50 people have already been employed with a large number transferring from their work in the International Department, Central Committee, CPSU. Present plans call for the location of permanent facilities for the Institute to be at a site not far from the present International Lenin School, which is located on Leningrad Prospect, about half the dis-

tance between downtown Moscow and Moscow's main international airport. At the present time, the Institute is maintaining offices at the CPSU Higher Party School in Moscow.

The Institute has been provided with a "hard currency" budget which will enable it to employ a number of people from foreign countries and enable it to pay these individuals in full or two-thirds of that amount in the currency of their native lands. The CPSU realizes that it could not get communist party leaders from other countries to work for the Institute unless it paid them in foreign currency. This is a sign of the importance that the CPSU attached to the Institute, because "hard currency" is an item particularly difficult for the Soviet Union to accumulate and the Government dispenses it as sparingly as possible and only when an urgent need arises.

The Institute will be affiliated with the Soviet Academy of Science in order to give it greater prestige. At the present time, Aleksei Rumyantsev, former Editor of "Pravda," official organ of the Central Committee, CPSU, is assisting Timofeev.

The first official lecture presented before the Institute was given by Gus Hall, General Secretary, Communist Party, USA, on September 26, 1966, during Hall's visit to Moscow while on tour of communist bloc countries. Approximately 2,000 people were present for Hall's lecture and many were turned away. One of the first written works to be issued by the Institute will be a pamphlet containing some of the more recent lectures of Gus Hall.

This is to acquaint you with the details of a secret meeting held in the Soviet Union between Gus Hall, General Secretary, Communist Party, USA, and officials of the Soviet Security Branch.

CG 5824-S\* has advised that in early October, 1966, while in the Soviet Union, Hall was summoned to a meeting where leading members of the Soviet Security Branch discussed the clandestine apparatus operating between the Communist Party, USA, and the Communist Party of the Soviet Union. The first point raised by the Soviets was who in the Communist Party, USA, knows that funds are being received from the Soviet Union. Hall advised that only CG 5824-S\* and NY 694-S\* know of the full details. He mentioned that Helen Winter, office manager at the Party's national headquarters, is provided funds which she funnels into the Party and may suspect where the money is coming from, but is not aware of the amount received or other details. Hall told the Soviets that in order to cover the funds channeled into the Party, he makes frequent trips throughout the United States and falsely reports back on successful fund drives or on successful contacts with friends who gave substantial contributions to the Party.

*Ry*  
*McGuire*

The Soviet officials then raised the matter concerning the alleged discussion reported sometime ago between Secretary of State Rusk and Soviet Ambassador Dobrynin wherein Rusk allegedly stated that the U.S. Government has knowledge of the amount and manner in which the Soviet Union is financing the Communist Party, USA. Hall responded that the Government has always charged that the Party was receiving funds from abroad, but obviously has no proof of it would have taken action long ago. (You will recall that Secretary Rusk has denied making such a statement to Dobrynin.)

85 NOV 23 1966

Memorandum to Mr. W. C. Sullivan  
RE: SOLO  
100-428091

The Soviets discussed the possibility of the Party establishing a firm abroad through which the Soviets could channelize funds to the Party. Hall argued against this noting that the U.S. Government keeps close tabs on American firms abroad; and, if the funds were brought into the United States legally, the Party would be forced to pay a substantial amount of tax. The Soviets then suggested that the Party set up, in New York City, a small laundry where people come and go at frequent intervals carrying bundles. Such a business would enable the Soviets to carry in a bundle of money without attracting any attention. Hall thought this was an excellent idea and promised to try and establish such a business.

The Soviets suggested that, hereafter, all personal meets be held away from the city since they felt that in a populated area, you could never be sure who was around; whereas in the country at lonely places, it could be immediately ascertained if strangers were present. Hall agreed and offered to mark maps for the Soviets' use in this regard.

The Soviets indicated that the apparatus work being performed by NY 694-S\* was very difficult and suggested that someone be located to assist NY 694-S\*. Hall indicated that an individual (NY 4309-S) was presently being developed to assist NY 694-S\*. The Soviets mentioned that when NY 694-S\* is ready to introduce this new individual into the apparatus, he should be brought to the Soviet Union so that the Security Branch could pass judgement on the individual's suitability.

OBSERVATIONS:

As a result of this meeting, Hall is now fully aware of the intimate details of the clandestine Solo apparatus, and has made himself a part of this apparatus. However, on the positive side is the fact that definite arrangements have been made to introduce NY 4309-S into the Solo apparatus.

On 11/15/66, there were received from Moscow, via radio, two ciphered-partially coded messages, the plain texts of which are as follows:

"On 10 November we got your signal by walkie-talkie and waited for further message but it did not follow. Drop 'Sue' is out of order because of construction works in the area. We are ready to get your material on 16 November through Drop 'Tessie.' If you are going to use 'Tessie' on 16th, please let us know on 15th by telephone."

The above refers to a walkie-talkie signal given on November 10, 1966, to set up a transceiver message for 11/11/66. Apparently this transceiver message was not received by the Russians as the message stated a drop was scheduled for 11/14/66. On 11/14/66, NY 694-S\* made a drop according to the transceiver message of 11/11/66. This drop was not cleared by the Russians and a new drop is scheduled to be made on 11/16/66.

SUMMARY OF INFORMATION CONCERNING THE VISIT OF  
GUS HALL, GENERAL SECRETARY, COMMUNIST PARTY,  
USA, AND COMMUNIST PARTY, USA DELEGATION TO  
HUNGARY, SEPTEMBER 9-13, 1966

Gus Hall, General Secretary of the Communist Party, USA (CP, USA), and a CP, USA delegation, which included in part Hall's wife Elizabeth and Arnold Johnson, a member of the National Board and Public Relations Director of the CP, USA, traveled by air to Budapest, Hungary, on September 9, 1966. This delegation had come to Hungary at the specific invitation of the Central Committee of the Hungarian Socialist Workers Party (HSWP). On their arrival at the Budapest airport, the group was met by a delegation from the Central Committee, HSWP, and after the formal greetings were taken to the Party hotel in Budapest where they would remain for their stay.

On Saturday morning, September 10, 1966, the delegation met with some leading representatives of the Central Committee, HSWP, and among these were Zoltan Komocsin, a member of the Political Bureau and a Secretary of the Central Committee, HSWP, and Firgyes Puja, Head of the International Department, Central Committee, HSWP. During the course of this meeting, Komocsin delivered an extensive report in which he presented Hall with general background information on Hungary; details of the uprising in 1956; remarks on the international situation within the communist movement; and, some remarks on the situation within the Party itself in Hungary.

Following the above meeting, which was extensive, the delegation was taken to lunch as guests of the Central Committee and then were taken on a tour of a Budapest factory. Later, that same day, the delegation participated in a meeting with Party activists in Budapest.

On the morning of Sunday, September 11, 1966, the delegation as guests of the HSWP were driven to Kecskemet where they participated in the annual Kecskemet harvest festival and also toured the vineyards in the area. The delegation lunched in Kecskemet and returned to Budapest that evening. En route to Budapest, the delegation also visited and toured a collective farm.

In connection with the above, it is noted that while the delegation was in Kecskemet and participating in the festival, a representative of the U.S. Consulate in Budapest was also present and had observed the activities.

On Monday, in the a.m., September 12, 1966, Hall and the CP, USA delegation were at the Central Committee, HSWP, headquarters in Budapest where they met with Janos Kadar, First Secretary, HSWP, and with other leading members of the Party. At this time, Kadar delivered some very extensive remarks which were in effect a continuation of the discussion which Komocsin had carried on with Hall on September 10, 1966.

Following the above meeting with Kadar, the delegation was taken on a tour of the Ikarus Body and Vehicle Factory in Budapest. At this plant, one which produces busses and similar vehicles for domestic and foreign use, the delegation was accompanied by Istvan Szurdi, Secretary of the Central Committee, HSWP, and Lajos Astalos, from the Central Committee, HSWP. The delegation while at the plant were guests of Ferenc Hirt, the Ikarus Plant Director. At the plant Hall addressed a number of the workers at a rally at which time he spoke on the Vietnam war and how the majority of the American people condemn the U.S. aggressive action in Vietnam. He also called for a strengthening of relations between the peoples and the Parties of the two countries, Hungary and the United States.

That evening, the delegation dined at the Party hotel with Janos Kadar and his wife. At the conclusion of dinner, Kadar and the other male members of the CP, USA delegation continued discussions that had originated earlier in the day during the meeting held with Kadar.

On Tuesday, September 13, 1966, Hall and the CP, USA delegation proceeded by air to Prague, Czechoslovakia.

In connection with the visit of Hall and the CP, USA delegation to Hungary, information concerning this appeared in several publications which are as follows:

"Nepsabadsag," official organ of the Central Committee, HSWP, in its issue of September 13, 1966;

"The Worker," United States East Coast communist newspaper, in its issue of September 25, 1966, page 3.

JOHN VAFIADES, FORMER AMERICAN NOW RESIDING AND  
WORKING IN PRAGUE, CZECHOSLOVAKIA

In early October, 1966, John Vafiades, a former American residing in Prague, Czechoslovakia, where he works for the World Federation of Trade Unions (WFTU), was confined to a neurological institute. Vafiades, while residing in the United States, had once suffered a broken vertebra which had partially healed. Recently, this same problem with the vertebra recurred and necessitated hospitalization and an operation. Vafiades, who has only an unimportant job at the WFTU, had some difficulty in arranging the required hospitalization and securing the necessary operation. He was ultimately successful in getting the best neurosurgeon in Prague to undertake the operation, but this, in a great part, was the result of the intervention of Abe Feinglass of Chicago, one of the current leaders of the Fur Workers Division of the Amalgamated Meat Cutters and Butcher Workers of America. Feinglass reportedly had once met the doctor who performed the operation on Vafiades when that individual made a trip to the United States. During this trip to the United States, the doctor had become short of currency so Feinglass invited this individual to stay at his home.

When Feinglass made a trip to the Soviet Union in the recent past, he had contacted Vafiades at the WFTU headquarters in Prague. Feinglass had known Vafiades as one of the workers in the Fur Workers Union. During their visit, Vafiades told Feinglass of his physical problems and the difficulty in securing proper medical attention and in getting a surgeon to perform the operation. Feinglass told Vafiades that he knew a doctor and would write to that individual in Czechoslovakia. Feinglass subsequently wrote to this doctor and shortly thereafter all arrangements were made for Vafiades to secure the hospitalization and the operation, and it was noted at the time that this was being done as a favor for Feinglass.

GRACE AMELIA GARDOS  
SECURITY MATTER - C

CGairtel 10/24/66 entitled "SOLO, IS-C" furnished information indicating that the imminent return of the subject to the United States is anticipated. Chicago should furnish details to Milwaukee and Springfield.

Milwaukee and New York should determine if the subject has returned to the United States. Also determine whether she is working for the Communist Party and in what capacity. Springfield should contact SI 131-S to determine if he has received any information concerning the subject's return but this contact must be made most discreetly in order to protect CG 5824-S.

The Bureau desires to consider some counter-intelligence action against the subject. In this connection, Milwaukee is requested to prepare a blind memorandum setting out all public source data concerning the subject. Handle promptly in order that any counterintelligence action approved by the Bureau will be timely.

**NOTE:** The subject is married to Emil Gardos, a long-time CP member who was deported from the United States in the 1940's for communist activity. Subject was also a CP member in the United States and left to join her husband in Hungary in 1948. She has lived in Hungary since that time with the exception of a visit in 1964 during which she visited her relatives in Los Angeles and Milwaukee, all of whom are active CP members. Her brother is Fred Blair, Milwaukee CP leader. Arrangements were made in late 1964 to take some counter-intelligence action through "Milwaukee Sentinel" but it was determined that the proposed publicity was not timely enough to be effective.

On 11/16/66, there were transmitted to the Soviets, via a New York City drop, a number of partially-coded messages on microfilm, the contents of which are as follows:

- (1) "I did not know it at the time but the entire block where Drop Sue lives is being demolished."

(Drop Sue was the next scheduled drop, see NY airtel 9/21/66, page 7.)

- (2) "The following are the suggested radio days, the best time and frequencies for 1967.

Every consideration and thought was carefully put into this, such as United States national holidays, etc., for ideal reception and for every precaution and security. Use 12 megacycles to 15 megacycles as frequencies for entire year. Time periods 12:30 to 1330 GMT for January through April and also for November and December 1967. From May through October 1967 use 1130 to 1230 GMT. This is because these months in United States use one hour earlier than standard time known as daylight saving time."

As the Bureau is aware, the 21st Solo Mission, which commenced 8/7/66, was completed on 10/15/66 with the return to Chicago of CG 5824-S\*, and numerous communications have been furnished to the Bureau setting forth the results thereof. Prior to this, CG 6653-S returned to the U.S. on 9/17/66 bringing with her a volume of intelligence information gathered by CG 5824-S\* up to that point. As noted in previous communications to the Bureau, the purpose of this mission was solely to accompany GUS HALL, General Secretary, CP, USA, on his extensive tour of the USSR and Eastern European countries. CG 5824-S\* left HALL when HALL began to visit Western European nations which extended HALL's trip until 10/23/66.

Based upon the excellent intelligence obtained during the course of this mission, as well as the great risks voluntarily assumed, it is recommended that an award be approved for CG 5824-S\* in the amount of \$1,000, and for CG 6653-S in the amount of \$500. Should the Bureau approve these awards, it is also recommended that accompanying letters from the Director be prepared as has been done in the past.

traveling under assumed identities behind the Iron Curtain and placed themselves in the hands of communist authorities, CG 5824-S\* for a period of two months and CG 6653-S for one month. Such an action reflects the highest level of courage and skill to successfully accomplish their mission. When CG 6653-S returned on 9/17/66 she carried with her numerous notes and documents from CG 5824-S\* which enabled this information to be made available to the intelligence community and policy-making bodies of the U.S. in much more timely fashion than had it awaited CG 5824-S\*'s return. During the course of this latest Solo Mission, CG 5824-S\* participated with HALL in meetings with the top leadership of every socialist country except China, Albania, and Cuba. This included meetings with LEONID I. BREZHNEV, General Secretary, CP of the Soviet Union; ANTONIN NOVOTNY, President of Czechoslovakia; WALTER ULBRICHT, Head of East Germany; WLADYSLAW GOMULKA, leader of Poland; NICOLAE CEAUSESCU, ruler of Romania; and other equally important socialist leaders. CG 5824-S\*'s position was greatly enhanced by this mission and the information obtained exceeds monetary valuation.

This trip was undertaken with the usual handicap of CG 5824-S\*'s generally poor physical condition. The rigors of more than two months of constant pressure left him in a state of total physical and mental exhaustion at the time of his return to the U.S. CG 5824-S\* has characterized this latest mission as the most difficult and trying mission he has ever undertaken, purely from a physical standpoint. GUS HALL kept his party constantly on the go in a whirlwind tour of every country he visited, requiring more than fifty airplane flights plus numerous long motor and boat trips, frequent changes of climate and diet, and even a camel ride in the wilds of Mongolia. In addition, the numerous high level meetings kept CG 5824-S\* under constant mental pressure as did his efforts to fulfill the unreasonable demands of GUS HALL for treatment that can be described as nothing less than royal.

It is in view of the above extraordinary accomplishments and sacrifices by these two informants that the above recommendations are made. I would like to point out that CG 5824-S\* is by nature a very sentimental individual and cherishes his association with the FBI, and particularly with the Director, even though on some occasions the demands of his assignments so seriously affect his health that he literally can no longer move. This latter condition he is careful to conceal from GUS HALL and the rest of the Party leadership because he is fearful that they might be moved to take away some of his duties in the exercise of which he

CG 134-46 Sub B

obtains valuable intelligence for the FBI. As noted above, this last trip was by far the most difficult and arduous because of the fact that he was forced to play the role of "nursemaid" for GUS HALL. I wish to further point out that CG 5824-S\* highly treasures the letters directed to him from Mr. HOOVER after these missions, it being noted that as he reads them tears come to his eyes. In view of the tremendous difficulties encountered in this particular mission, I would like to recommend that we do something a little out of the ordinary for him in order to show him that we recognize the extraordinary character of his sacrifice and contribution on this mission. In addition to the award and letter from the Director, we recommend that consideration be given to having the Laboratory prepare a plaque which would be presented to him by me and, of course, then retained by this office. This plaque could depict his outstanding service to his country and the FBI, from the Director. I feel that this is something which would be cherished by CG 5824-S\* for the rest of his life.

ReBulet dated November 10, 1966.

ReBulet points out what possibly appears to be a discrepancy in CGlet dated November 4, 1966, and in NYlet dated November 1, 1966, pertaining to a transaction involving the sum of \$212.30 and requested clarification of this matter.

For the information of the Bureau, New York correctly reported in its letter of November 1, 1966, that the sum of \$212.30 had been paid to CG 5824-S\* on October 27, 1966, while the source was in New York City. The source received this money in conjunction with other monies which he provided to Party leaders in New York City. However, while in New York City, the source did not spend the \$212.30 and, therefore, brought this money back to Chicago with him. The source personally placed this \$212.30, which originated with Solo Funds in New York City, with the Solo Funds he now maintains in Chicago. Accordingly, the addition of \$212.30 to Solo Funds noted in CGlet is also correct and the transaction, in effect, resulted in a transfer of funds from New York City to Chicago.

On 11/17/66 CG 5824-S\*, who has furnished reliable information in the past, advised SAs WALTER A. BOYLE and RICHARD W. HANSEN as follows:

In conversations he held with GUS HALL, General Secretary, Communist Party, USA (CP, USA), while the latter was in Chicago; 11/15-16/66, HALL raised the matter regarding the Party's request for financial assistance from the CP of the Soviet Union for 1967. At this time, HALL stated that if "we don't get the word soon, start badgering them (the Russians)." He then indicated that if the delay is too long, it might be necessary to "go over and slug it out with them." According to CG 5824-S\*, HALL's intent was to clearly infer that a satisfactory solution to the money problem was up to CG 5824-S\* and that, if necessary, the source should be prepared to travel. CG 5824-S\* noted that he told HALL to be patient for awhile yet since the past has shown that no decision on such matters is rendered by the Russians normally until sometime after the first of December.

At this same time, HALL was full of sarcasm and resentment generally towards the Russians. He had been extremely irked by the kind of treatment he had received in

New York City at the Soviet Union 11/7 celebration which was held at the UN. According to HALL, from the kind of reception he got there, "I might as well have been a man from the street." HALL then related this reception at the UN on 11/7 to an occurrence which took place during the course of the 21st Solo Mission while HALL and the source were in Prague, Czechoslovakia. On this occasion, some leading people of the CP of Czechoslovakia, including a Secretary of the Central Committee, had taken HALL and his wife and CG 5824-S\* and his wife to a night club. At this same night club the Czech Premier, JOSEF LENART, was entertaining the President of Latvia and a group of Latvian Government officials. Although LENART and the rest of the leading Czech representatives at that function came over to HALL's table to wish him well and render toasts to him, the Russian Latvians stood aloof, did not come over or even acknowledge HALL's presence. At the time this had irked HALL very much and he commented at one point "those damn stiff Russians."

Gus Hall

Gus Hall, General Secretary of the Communist Party of the USA, is planning to visit our country today at the invitation of the Central Committee of the Mongol People's Revolutionary Party.

Gus Hall, famous leader of the American Communist and Workers' Movements, was born in the family of a worker of Finnish origin in Ironton, Minnesota, on 8 October 1910. Gus Hall began to work when he was fourteen and was employed from 1924-1929 in a wood processing plant, in the mining industry, on the railroad, and in construction. In 1927, he joined the Communist Party.

In the early 1930's, he headed the Communist Youth Leagues in Minnesota, Michigan, and Wisconsin. He also directed the movement against racial discrimination, (for) strikes, and for compensation of the unemployed, and after 1934 he founded the Youth Organization of the City of Youngstown, Ohio. While he was working in the Iron Foundry there, he founded a committee to organize the steel blast furnace workers and during the period 1936-1938 he was leader of the steel blast furnace workers in the Pittsburgh-Youngstown area. Also, during this period, he led a large strike of workers in the small iron works and opened the way to organizing labor unions in that sector. During the period 1938-1942, he directed the local Cleveland Communist Party organization from Youngstown. In 1942-1946, he performed military service at the Army Sea Base on Guam.

In 1944, Comrade Gus Hall was elected to membership in the National Committee of the Communist Party and in 1946 he became a member of the National Council of the Communist Party's National Committee. In 1947, he became chief of the Ohio State and Federal Party organization and in 1949 he was chosen secretary of the Party's National Committee.

In 1949-1951 Gus Hall, with other Party leaders, was tried under the Smith Act and sentenced to a total of eight years in the penitentiary. He was locked up for six years in Leavenworth Prison, Kansas, and although released in 1957, he was imprisoned for two (more) years for political activity.

From 1959 on, Gus Hall returned to Party work and in December 1959 he was elected General Secretary of the Communist Party at the 17th Congress of the assembled US Communist Party. Beginning in 1962, they once more investigated Gus Hall under the

Meeting of the Central Committee of the Communist Party of the USSR Moscow. 29 September.

Comrade L.I. Brezhnev, General Secretary of the Central Committee of the Soviet Communist Party, Comrade M.A. Suslov, member of the Politburo of the Central Committee of the Soviet Communist Party and Secretary of the Central Committee, V.N. Ponomarev, Secretary of the Central Committee of the Soviet Communist Party, and others on 28 September greeted Comrade Gus Hall, Secretary General of the US Communist Party, who has come to the Soviet Union at the invitation of the Central Committee of the Soviet Communist Party.

During the meeting which took place, a joint statement of the Committee for the Communist Parties of the Soviet Union and of the United States appeared in the atmosphere of brotherly harmony and joint understanding which had become symbolic, and they examined with mutual interest and exchanged views on current problems within a broad framework.

Representatives of the Communist Parties of the USSR and of the United States, in the course of talks, pointed out that US imperialism, which has been the center of world reactionary power, has in recent times placed obstacles and impediments in the way of the progress and prosperity of mankind by every means and device, including armed force, and unanimously declared that the leader of the United States has been meddling in the internal affairs of other countries and in imperialistic activities, and has been clearly supporting, without shame, the regime of a reactionary dictator---and all of this has created a threat to the general peace, and, because of the American people, has become the principal menace to the basic rights of the peoples of the world.

GUS HALL IN OUR COUNTRY

Visited the Home of a Livestock Grower

Dzuun Mod. 2 October (Special correspondent of Unen Newspaper)

On this fine, calm day, pleasing to the spirit and warmed by the yellow autumn sun, they departed from Ulan Bator, and the plump domestic animals (i.e., horses, cows, camels, sheep, goats) grazing along the road leading to one of the dwelling places of the "Abdarhanggay" Cooperative horse herd of Sergelen Somon, Töb Aymag, (show) a standard of living that would gladden the heart of anyone, testifying to the happy, prosperous condition of the livestock people.

On this day, our distinguished guest Gus Hall, General Secretary of the US Communist Party, and retinue visited "Abdarhanggay" Cooperative, Sergelen Somon, Töb Aymag, Iu. Tsendenbal, First Secretary of the CC of the MPRP, D. Molomjants, member of the Politburo of the CC of the MPRP and Secretary of the CC, and others accompanied the honored guest to the said cooperative.

Our distinguished guest who has come from afar was cordially welcomed by the Party Committee of Töb Aymag, the A.D.H. (sic) Executive Director, and by leading comrades of "Abdarhanggay" Cooperative (who) invited him in and explained (to him) the way of life of the livestock people and their work products.

The guests entered the home of B. Batsuh, horse herd leader of the Third Brigade, "Abdarhanggay" Cooperative, and used the opportunity to chat with him. This base's four horse farms and neighboring cooperatives care for over 1,200 horses, obtaining from each horse 520 grams of horsehair and 350 grams of molted hair, and have been successfully fulfilling their plan to obtain 200 liters of milk from each mare, besides production for the state, Batsuh told the visitor.

While regaling the guests with milk and dairy products and toasting them with thick, yellowish kumiss, Somon Cooperative Chief Tudeb talked about the successful production of the members of the cooperative and answered (questions) on matters in which they were interested.

Gus Hall, famous activist of the American Communist and workers' Movements, inquired with interest about many points concerning the activities of the Party Organization in our agricultural localities.

Comrade Gus Hall went through some of the nearby homes of the said settlement and watched with interest races between fast horses and the lassoing and breaking of (wild) horses.

Upon leaving the herd of horses and being presented with a choice of Mongol horse, Comrade Gus Hall expressed his heart-felt gratitude, and, facing the livestock growers of the settlement, made a speech as follows:

"We Americans are seeing Mongolia and the present life of the Mongolian livestock people with (our own) eyes, and, making their acquaintance in this manner, we understand (them). You friendly, hospitable, laboring, dedicated Mongol comrades are living a fine, prosperous life. At a time when the American people have not yet freed themselves from the heavy oppression of the imperialists, monopolists, and capitalists, we cannot build, just like you, a socialist, collective economy, nor live on (the basis of) the equality of each man. We are struggling for true freedom, democracy, and socialism (for) the American people.

"May I wish that you increase further your abundant, prosperous, livestock herds and enjoy a fine, happy life!", he said. The settlement's elder Batsun offered a silver goblet full of milk and a ceremonial scarf to the distinguished guest and wished him success in his work and bon voyage.

When Comrade Gus Hall, General Secretary of the US Communist Party, was occupied with visiting Töb Aimak, the Aimak Party Committee respectfully entertained the guests.

The following information was furnished to SA WALTER A. BOYLE on October 28, 1966, by CG 5824-S\*, who has furnished reliable information in the past:

On October 27, 1966, GEORGE MEYERS, leading Communist Party, USA (CP, USA) functionary from Baltimore, Maryland, left the United States en route to Prague, Czechoslovakia, where he was to participate in a round table conference sponsored by the "World Marxist Review," a theoretical organ of the international communist movement, headquartered at Prague. Prior to his departure, he was furnished with several confidential items which he was to deliver while in Prague.

As you will recall, while in Moscow, USSR, during May, 1966, SCHROEDER BOLTON had engaged in discussions with a number of ranking economists, including VLADIMIR P. PAVLICHENKO, Assistant Scientific Secretary-General, USSR Academy of Science, and ANATOLY KUZNETZOV, Soviet Foreign Ministry officer. BOLTON has attempted to maintain contact with these individuals since that time. Sometime prior to October 27, 1966, BOLTON furnished to NY 694-S\* a number of items relative to United States economic matters which he desired be transmitted by CP, USA channels to the above-named Soviet economists. Therefore, on October 26, 1966, the economic material provided by BOLTON was furnished to CG 5824-S\* who delivered it to GEORGE MEYERS on October 27, 1966, in sealed envelopes addressed to the above-named individuals.

One copy of each of these five economic documents is enclosed herewith for the Bureau and the New York Office.

When this material was furnished to MEYERS, he was instructed to furnish it to (FNU) TUCHIN, a Soviet national who is acting as the Chief of Protocol at the "World Marxist Review" with the request that he, in turn, transmit this material to KUZNETZOV and PAVLICHENKO.

This is to recommend that a \$1,000 meritorious award be made to CG 5824-S\* and a \$500 meritorious award be made to CG 6653-S in view of the fact that these informants subjected themselves to extraordinary risks in accompanying Gus Hall, General Secretary, Communist Party, USA, on a tour of the Soviet Union and Soviet-bloc countries. It is also recommended that these informants receive individual letters of appreciation. *B/S*

The 21st Solo Mission was completed on 10/15/66, with the return of CG 5824-S\* to the United States. At the instructions of Gus Hall, CG 5824-S\* and CG 6653-S departed from the United States on 8/7/66, en route to the Soviet Union for the purpose of accompanying Gus Hall on a tour of the Soviet Union and Soviet-bloc countries.

CG 5824-S\* participated with Hall in meetings with the top communist leadership of every country visited. This included meetings with such leaders as Leonid Brezhnev, General Secretary, Communist Party of the Soviet Union; Antonin Novotny, President of Czechoslovakia; and Walter Ulbricht, East Germany communist leader. As a result, CG 5824-S\* was able to supply us with detailed information concerning the latest developments in the international communist movement. *b*

CG 5824-S\* and CG 6653-S displayed an utter disregard for their own health and safety by subjecting themselves to the rigors of this mission in dealing at firsthand with the Soviet and Soviet-bloc leadership within the confines of the Iron Curtain. This mission, which lasted over two months, was characterized by CG 5824-S\* as the most difficult and trying mission he has ever undertaken.

Memorandum to Mr. W. C. Sullivan  
RE: SOLO  
100-428091

During this entire mission, CG 6653-S, in addition to her duties in a secretarial capacity for Gus Hall, attended various communist social affairs with Hall's wife. CG 6653-S, who returned to the United States on 9/17/66, concealed, on her person, confidential notes which enabled this data to be disseminated to the top leaders of our Government in a much more timely fashion than had it awaited CG 5824-S\*'s return on 10/15/66.

Our Chicago Office has recommended that, in addition to the above-mentioned awards to CG 5824-S\*, this informant also be awarded a plaque which would be presented to him in further recognition of the extraordinary character of his contribution on this mission. However, it is not felt that such action would be judicious in that it would set a precedent which we would be obligated to follow in the future. It would also have the effect of slighting NY 694-S\*, who feels his activities in this operation are of equal importance.

OBSERVATIONS:

The intelligence data obtained on this Solo mission is invaluable. These missions are inherently dangerous, particularly since the informants are traveling under pseudonyms and could be "lost" behind the Iron Curtain at any time and no one could question their whereabouts. The willingness and courage of these informants in carrying out this mission at a great personal sacrifice certainly merits special recognition.

RECOMMENDATIONS:

(1) That CG 5824-S\* and CG 6653-S receive individual letters of appreciation as well as awards of \$1,000 and \$500, respectively.

GMH

(2) That the attached letter be sent to Chicago authorizing the above-noted payments to CG 5824-S\* and CG 6653-S and instructing the Special Agent in Charge to make the presentation of these awards along with the attached personal letters of appreciation. (After informants have had an opportunity to read the letters of appreciation, the letters will be returned to the Chicago Office and retained in the office safe.)

On 11/9/66, CG 5824-S\*, who has furnished reliable information in the past, advised SAs WALTER A. BOYLE and RICHARD W. HANSEN that during the course of the 21st Solo Mission he had occasion in nearly all countries he visited to talk to representatives of the Parties' International Departments. Based on discussions with the representatives of such International Departments, the source noted that arrangements had been made which would enable him on an emergency basis to enter the following countries without having previously received the usual visa: Romania, Hungary, Poland, and Bulgaria.

In all of these countries, CG 5824-S\* was told that all that would be required of him was that on arrival he should contact a security officer and have that individual contact the Central Committee of the respective Party. A representative of the Central Committee would then be dispatched and would meet the source. Previously, CG 5824-S\* had made similar arrangements with the International Departments of the Parties in Germany and Czechoslovakia. In the

On 11/22/66, there was received at a NYC mail drop a typewritten note for transmission to GUS HALL. This note is as follows:

"VENEZUELAN LEADER ASSASINATED BY POLICE

"Alberto Lovera, a leader of the Venezuelan Communist Party was sequestered, brutally tortured and assassinated on October 1965 by Agents of DIGEPOL (General Police Direction) that works in connection and under the teachings of FBI and CIA agencies in Venezuela. He was snatched away in Caracas October 18 and tortured by Captain Vegas and some other ten police agents; then he was sent to Cachipo (a concentration military camp located in Monagas State in Eastern Venezuela), where they continued the tortures. In view of the physical state of Lovera, the military-police gang decided to kill him and they tried to hide this inhuman murder. On October 27 his corpse appeared floating with a chain and a pick-axe around his neck on the shores of Puerto La Cruz at Anozategui State (Eastern also)

"At the begining, the government agencies denied any responsability on the kidnapping, of comrade Lovera. Also they tried to point out that 'he was probably killed by his comrades due to order received from Havana'. Nevertheless, due to the facts that he was moved from the headquarters of DIGEPOL in Caracas to other police precincts in the city and then he was transported to Maturin (about 450 kilometers far from the capital) and he was tortured in the presence of others political prisoners (of the thousands that overcrowd the jails and concentration camps in Venezuela today) it was practically impossible to hide the murder.

"After the denounce of Lovera case (with some others of the same type) in the Parliament and due to a sound mass movement all over the country, the Congress ordered an investigation which is over now. The results of these investigations proves the absolute responsability of the DIGEPOL and specially of Captain Vegas, of Patino Gonzalez (Digepol Director by that time and now in New York studying at the FBI headquarters), others five agents and logically the Minister of Interior, Gonzalo Barrios.

"Alberto Lovera was born in August 1923. Being a young fellow he moved with his mother to the oilfields al Zulia State. Some time after he started working as second motorist in an oil-tanker. He traveled to United States and Canada being an oil-worker. Vers after he became a member of the Youth Organization of the Venezuelan Communist Party. Then he was asked to quit his job due to the Party's needs. Afterwards he was fighting, until his death, as a loyal communist and a popular leader.

"In 1947 he went to Budapest for the International Youth Festival in representation of the Communist Youth of Venezuela. In 1959 he traveled as member of a Delegation of the Central Committee of the VCP to Moscow and Peking. On the VCP Third Congress, held on March 1961, he was ratified as member of the CC and he was elected as member

On 11/17/66 CG 5824-S\*, who has furnished reliable information in the past, advised SAs WALTER A. BOYLE and RICHARD W. HANSEN that only recently he had recalled that during the 21st Solo Mission when he and GUS HALL, General Secretary, Communist Party, USA (CP, USA), had met with representatives of the Security Branch, International Department, Central Committee, CP of the Soviet Union, in early 10/66 some inquiry had been made by the Russians as to what "we" knew about JACK VALENTI, former personal aide to President LYNDON B. JOHNSON and now head of the Motion Picture Industry Association, Hollywood, Calif. The Russians indicated that they knew a lot about VALENTI based on press material and on remarks of columnists, but they posed questions like: How many children does VALENTI have? How close is VALENTI to the President today? What is VALENTI's new job and what are his duties? What other details did we know about his personal background? After having raised the matter of VALENTI, the Russians also asked similar questions regarding WILLIAM MOYERS, former Press Secretary to President JOHNSON.

At the time of the inquiry, neither HALL nor CG 5824-S\* was able to supply specific answers to any

of the questions posed by the Russians concerning VALENTI or MOYERS. HALL, however, promised that upon his return he would try to get more information for them "through his Washington contacts."

CG 5824-S\* noted that following this meeting, he had spent considerable time trying to figure out why the Russians had made such inquiries concerning VALENTI and MOYERS. After having given this much thought, CG 5824-S\* stated that it was his opinion, and only that, that the Russians had probably expressed interest in these people because they had been close to President JOHNSON and they were contemplating travel which could bring them to the Soviet Union or other socialist countries and during such visits might be engaged in discussions with government leaders. Since each of these individuals held important positions and was close to President JOHNSON, the Russians may have been attempting to determine if either of these individuals might still have "the ear" of the President so that if they told them something it could be anticipated that it might get back to the President. It may also have been possible that the Russians may have been seeking to establish a basis for evaluation of certain remarks and comments made by these individuals and might have been trying to ascertain whether they could interpret such remarks as echoing the attitudes and thoughts of the President. Similarly, they may have been trying to ascertain whether statements emanating from such people could be relied upon as echoing some semi-official opinion.

According to the source, he felt the foregoing inquiry by the Russians was worthy of note even though his own evaluation thereof was based totally on opinion and in no way can be said to factually state the true meaning of these inquiries by the Russians.

The Bureau appreciates the fact that CG 5824-S\*'s commitments have been such that it has not been possible for informant to devote any time to the preparation of a paper on informant's opinion concerning what the foreign policy of the United States should be toward the Soviet Union.

It is to be noted that the Bureau considers the preparation of the above-mentioned paper to be a priority assignment. Therefore, you should follow this matter closely with CG 5824-S\*. Every effort should be made to have the informant complete the paper as soon as possible after 1/1/67.

NOTE:

CG 5824-S\* was given this assignment in early August, 1966; however, informant left the United States on Solo Mission 21 on 8/7/66, and did not return until 10/15/66. Since that time informant has had to spend two weeks in New York City with Party leader Gus Hall; has undergone extensive debriefing; has been involved with leadership problems in the Illinois CP District; the illness of NY 694-S\* has placed additional burdens on CG 5824-S\*; and CG 5824-S\* is not feeling well because of the arduous Solo mission he just completed. Informant's time will be taken up by CP National Committee and National Board meetings during December, but hopes to start on the paper by 1/1/67. The purpose of this letter is to impress upon the Chicago Office the importance of the paper and the need to follow this matter closely.

ReBulet dated November 14, 1966.

ReBulet requested the Chicago Office to have CG 5824-S\* expedite the preparation of the paper on the source's opinion concerning what United States foreign policy should be towards the Soviet Union.

In connection with this matter, I had occasion to personally meet with CG 5824-S\* on November 18, 1966, and to discuss the above assignment with him. At this time, the source informed me that the preparation of such a document had been foremost in his mind; however, it is a type of document that would require much time and thought. As a result, time for concentration is essential and this has been the major problem. He then noted that since his return from the 21st Solo Mission on October 15, 1966, he has had no time to sit down and work on such a document. Since his return, in addition to extensive debriefing, he had spent 12 days in New York City, had a two-day meeting with GUS HALL in Chicago, spent two days entertaining HALL's wife during a stopover in Chicago, has been deeply involved in CP Illinois District leadership problems as well as CP, USA problems in general. Also, the source noted that the illness of NY 694-S\* has placed additional burdens on him and this has necessitated that he be in a constant status of availability so that he can travel to New York City if needed. In regard to himself, the source said he had not been feeling well due in part to his past physical problems as well as sheer exhaustion from a most arduous Solo Mission which lasted for nearly two and one-half months.

While all of the foregoing factors have precluded his taking out the necessary time for the preparation and thought needed for this important document, he has been requested to draw up the forthcoming period, at least through January 1, 1967, even offers him less prospect for finding

the necessary time. Already, GUS HALL has ordered the source to be in New York City for the National Board and National Committee meetings which start December 2, 1966, and will run for an extended period thereafter. Prior to this, NY 694-S\* has requested CG 5824-S\* to meet with him for serious discussions regarding the Solo apparatus. NY 694-S\*, because of health reasons, will be leaving New York City on December 1, 1966, and it is anticipated he will be gone for approximately two months. As a result, CG 5824-S\* now is already planning to leave Chicago for New York City on November 28, 1966. From December 1, 1966, on, CG 5824-S\*, in the absence of NY 694-S\*, will have the further responsibility of being totally available for apparatus work should NY 694-S\* be incapable of handling drops and/or meetings that the Russians might desire to set up.

The source noted that although the foregoing would appear to be sufficient to occupy him full time during the forthcoming weeks, HALL has already suggested the possibility of another trip to the Soviet Union if no satisfactory answer is forthcoming in the immediate future regarding the Party's requested subsidy from the CP of the Soviet Union for 1967. In addition to all of this, because of NY 694-S\*'s physical problems, CG 5824-S\* has been busily engaged in attempting to arrange for the insertion of an aide to NY 694-S\* in the Solo apparatus. In this connection, the source has already secured HALL's approval for the use of the individual who has been suggested but final approval for his actual use can be only granted by the Russians and they insist on personal discussions abroad prior to the use of any such individual. Since it does not appear that NY 694-S\* can at least at this time travel, the burden of this task will also fall upon CG 5824-S\* at some near future date.

While CG 5824-S\* states that he appreciates the importance of the requested document and is honored by being asked to prepare it, he does not feel that he is physically able or has the time at this point to act concretely on its preparation. However, CG 5824-S\* stated he hoped that the situation existing as of January 1, 1967, will have changed so that it will be possible for him at this time to undertake the task of preparing this document and submitting it at the earliest possible date thereafter.

ReBulet dated November 14, 1966.

ReBulet requested the Chicago Office to have CG 5824-S\* expedite the preparation of the paper on the source's opinion concerning what United States foreign policy should be towards the Soviet Union.

In connection with this matter, I had occasion to personally meet with CG 5824-S\* on November 18, 1966, and to discuss the above assignment with him. At this time, the source informed me that the preparation of such a document had been foremost in his mind; however, it is a type of document that would require much time and thought. As a result, time for concentration is essential and this has been the major problem. He then noted that since his return from the 21st Solo Mission on October 15, 1966, he has had no time to sit down and work on such a document. Since his return, in addition to extensive debriefing, he had spent 12 days in New York City, had a two-day meeting with GUS HALL in Chicago, spent two days entertaining HALL's wife during a stopover in Chicago, has been deeply involved in CP Illinois District leadership problems as well as CP, USA problems in general. Also, the source noted that the illness of NY 694-S\* has placed additional burdens on him and this has necessitated that he be in a constant status of availability so that he can travel to New York City if needed. In regard to himself, the source said he had not been feeling well due in part to his past physical problems as well as sheer exhaustion from a most arduous Solo Mission which lasted for nearly two and one-half months.

While all of the foregoing factors have precluded his taking out the necessary time for the preparation and thought needed for this important document he has been requested to draw up, the forthcoming period, at least through January 1, 1967, even offers him less prospect for finding

Dear Mr. Watson:

I thought the President would be interested in learning that officials of the Soviet Security Branch are endeavoring to obtain personal data pertaining to Presidential Press Secretary Bill D. Moyers and former Presidential Aide Jack Valenti.

The following information was supplied by a most sensitive source which has furnished reliable information in the past.

Gus Hall, General Secretary, Communist Party, USA, returned to the United States on October 23, 1966, after an extended trip abroad where he visited several Eastern European countries, including the Soviet Union. Hall has recently stated that, while in the Soviet Union, he had been summoned to a meeting with leading officials of the Soviet Security Branch. During the meeting, the Soviet officials indicated they knew a lot about Valenti and Moyers based on press material; but they desired to know more about their personal backgrounds. According to Hall, the Soviet officials posed such questions as: "How many children does Valenti have? How close is Valenti to the President today? What is Valenti's new job? What are his duties? What are the details concerning Valenti's personal background?" Hall stated that the Soviet officials had also asked similar questions regarding Moyers.

Hall indicated he was unable to supply specific answers to any of the questions posed by the Soviet officials concerning Valenti and Moyers and did not know why the Soviet officials were interested in these individuals. However, he stated he had promised the Soviet officials that, upon his return to the United States, he would try to get more information for them "through his contacts."

This information is not being furnished to the Acting Attorney General.

Because of the sensitive nature of our source, this communication has been classified "~~TOP SECRET~~." It is requested that the contents of this communication be restricted to a need-to-know basis.

TO : DIRECTOR, FBI (100-428091)  
Att: Asst. Dir. WILLIAM C. SULLIVAN

SUBJECT: SOLO

As the Bureau is aware, SA WILLIAM C. MARTIN has been the alternate agent in handling NY 694-S\*. The Bureau is also aware of the transfer of SA MARTIN to the Newark Office. It will now be necessary to designate another alternate agent.

In designating an alternate agent, various factors must be taken into consideration. The NYO feels that the SOLO operation, as well as the activities of NY 694-S\* in general, is one of the most important aspects of the work being handled in this office and as a result extreme caution must be used in selecting the agent who will act as the alternate. It is also important that an agent be designated who has the ability and personality to work harmoniously with NY 694-S\*. The Bureau knows that at times NY 694-S\* can be most difficult to handle. Taking these factors under consideration, I have concluded that SA JOHN F. LANGTRY is the proper man for the assignment.

SA JOHN F. LANGTRY was born 5/10/24. His EOD date is 4/16/51, and he has been assigned to the NYO since 4/4/55, and to the present he has been assigned to the Internal Security Division. He has developed a thorough knowledge of the Communist Party and many of the individuals connected with it. For a number of years he has handled NY 1587-S\* who is the foremost informant in the New York District CP and in this assignment his work has been above the average.

SA LANGTRY has proved himself to be a very capable Bureau agent. He is a thorough investigator, extremely loyal and a hard worker. He is most dependable. In addition, he has an outstanding personality and should have no difficulty in establishing rapport with the informant.

When NY 694-S\* was advised that SA MARTIN had been transferred to the Newark Office, he expressed a desire that the Bureau carefully consider the designation of a new agent as it was of great concern to him, on account of his illness, that he be able to work without irritation. He indicated he would be pleased to have an agent of the caliber and personality of SA MARTIN.

In consideration of the wishes of NY 694-S\*, it is believed that SA LANGTRY would be a most desirable choice as the alternate agent. Therefore, UACB SA LANGTRY has been designated as the alternate agent to work with SA BURLINSON in handling NY 694-S\*.

INTERNAL SECURITY - COMMUNIST

In the attached letter from New York dated 11/23/66, SAC stated that, unless advised to the contrary, Special Agent John F. Langtry would replace Special Agent William C. Martin as the alternate Agent in handling NY 694-S\* in view of Agent Martin's transfer to the Newark Division.

SAC noted that Agent Langtry, who has been an Agent since 1951, has a thorough knowledge of the Communist Party and many of the individuals connected with it as a result of having handled [redacted], the foremost informant in the New York District of the Communist Party, USA. SAC noted that Agent Langtry has an outstanding personality and should have no difficulty in establishing rapport with NY 694-S\*.

Agent Langtry's personnel file is replete with examples of diligence, reliability, and constant awareness of the responsibilities placed on the Bureau. His last performance rating was "Excellent." Agent Langtry has received two incentive awards and has never been censured. He has done a particularly fine job in directing [redacted] into a highly placed position within the Communist Party. It is believed that Agent Langtry can serve in a competent manner as the alternate Agent in handling NY 694-S\*.

## RECOMMENDATION:

That Special Agent Langtry be designated as the alternate contacting Agent for NY 694-S\*. If you approve, there is attached an appropriate letter to the SAC, New York.

| this individual but his name was not raised at this time. At the time of this discussion, HALL stated that before anything of this nature, that is, the addition of an assistant to NY 694-S\* to the apparatus, he wanted to know about him. He also told the Russians that when they were ready to approve such a helper for NY 694-S\*, they should let the Party here know. According to CG 5824-S\*, this was the first occasion on which the Russians actually indicated they were now prepared to consider and/or accept a helper for NY 694-S\*. The source also noted that the Russians had stated that when NY 694-S\* was ready to consider the introduction of a new person into the apparatus, that the Russians would like to talk to NY 694-S\* so they could discuss this matter. The Russians suggested that this meeting place could be in Moscow; Prague, Czechoslovakia; or any other safe location chosen by NY 694-S\*. At such a meeting, the Russians would be able to render a decision on the utilization in the apparatus of the person suggested by NY 694-S\*.

In view of the foregoing suggestion by the Russians and because of NY 694-S\*'s present health situation, both CG 5824-S\* and NY 694-S\* have given this matter of a possible assistant to NY 694-S\* their maximum attention. Since NY 4309-S is well qualified for this position in the apparatus based on his past training in the Soviet Union and also because of his actual experience, it was felt by both CG 5824-S\* and NY 694-S\* that this individual was capable of trust and would be acceptable to the Russians. Accordingly, it was decided that CG 5824-S\* should raise this matter of inserting NY 4309-S into the Soloapparatus with GUS HALL at the earliest possible logical opportunity.

NY 694-S\* and CG 5824-S\* then drew up a biography relating to NY 4309-S which, in essence, was as follows:

NY 4309-S is in his early fifties. His [redacted] [redacted] who worked in the [redacted] beginning in the early 1930's and was assigned to the [redacted] in Moscow. When the [redacted] was discontinued, [redacted] settled in the USSR and died there in 1951.

NY 694-S\* first met NY 4309-S in the early 1930's when he was brought in from the [redacted] by the Party as an expert in the [redacted]. In those days he was considered a highly skilled worker in the field of [redacted] working

b7D

b7D

for [redacted] He and his father had always been regarded as trusted, skilled apparatus people. He was then [redacted] who came from a family of old-time Party people. They were later divorced and he remarried in the late thirties. His wife's brother was one of the veterans of the Spanish War.

NY 4309-S went across with his father and went into the [redacted] doing important work [redacted] in England, France, Austria, and Germany. The best endorsement that can be given to him is that he worked [redacted] who was considered the [redacted] ever to [redacted] at one time [redacted] CG 5824-S\* in Chicago.

b7D

When NY 4309-S came back to the US [redacted] in about 1937 or 1938, he was instructed to immediately contact NY 694-S\* and the Secretary of the Party, Earl Browder. He was told to lay low but always be ready. This he did over many years and has never been openly exposed. From 1937-40, he was in touch with Harry Kwite and Gene Dennis and, of course, the Party knew of his existence and importance, and Dennis knew of his activity overseas but his name was never brought up.

b7D

During World War II he volunteered for the Marines and was discharged with a good record. He immediately reported back to the Party. He was kept in reserve but always retained contact with one or the other leader of the Party and kept in touch so he would not become isolated politically. He went into [redacted] and became a [redacted]

[redacted] For the last [redacted] he has been in the [redacted] of [redacted] At present you know where he is working and what he is doing. In all the years of maintaining contact he always paid his dues no matter what the amount and added a donation besides.

b7D

We suggest that NY 4309-S be actively involved in the apparatus and be allowed to do more consistent work as soon as possible. The Russians are aware

of him. They have his record and told NY 694-S\* about the details of his father's death over there in 1951 of natural causes. At the same time, we suggest that there are a few younger guys around that we should start to break in and train for the future.

It was decided that when the matter of NY 4309-S was raised with HALL, he would only be furnished the essence of the above material in an oral fashion and that nothing would be placed in writing on this subject if it could be avoided.

On 11/15-16/66 GUS HALL was in Chicago and during this period spent his time exclusively with CG 5824-S\*. After having ascertained HALL's mood at the time, CG 5824-S\* felt that the time was ripe for a presentation to HALL regarding NY 4309-S. Accordingly, a discussion took place during the course of HALL's two-day stay and at this time HALL was presented with NY 4309-S' identity and a summary of background information regarding him. Following the conclusion of their discussion on this subject, HALL granted his formal approval for the use of NY 4309-S in the Solo apparatus pending advice to the Russians and the Russians' subsequent approval of such use. HALL instructed further that when feasible the matter be taken up with the Russians in the manner they had suggested, that is, a personal meeting with the Russians by NY 694-S\* in Moscow, Prague, or some other acceptable meeting place. The only qualification HALL placed on the use of NY 4309-S was that he, HALL, desires to be introduced to that individual before formal approval and utilization.

The source then noted that the matter of introduction of NY 4309-S to HALL should not be rushed and that HALL had indicated that for the next period of a few weeks he would be too busy to undertake such a meeting. HALL stated the reason for this was because he had reports to prepare for the National Board and National Committee meetings scheduled in early 12/66 and also because he had a mass meeting for this same period. Therefore, such meeting can probably not be arranged before mid-12/66 at the earliest.

In regard to such a meeting between HALL and NY 4309-S, CG 5824-S\* stated that this individual will have to be thoroughly briefed by either NY 694-S\*, CG 5824-S\*, or by both of them. This briefing must thoroughly prepare NY 4309-S as to anticipated

CG 134-46 Sub B

questions that HALL might place and the nature of the response that NY 4309-S should make. In addition, NY 4309-S must be briefed regarding HALL's personality and ego in order that he will not, in any way, give HALL basis for rejection of the source's utilization. *See Barry NY 694-S\* 20067 handled*

According to CG 5824-S\*, he has been asked by HALL to come to NYC around the period that the National Board and National Committee meetings will commence, 12/2/66, and, therefore, at this time he would be able to discuss the matter of NY 4309-S with NY 694-S\*. In such discussions, the source and NY 694-S\* could decide how and when NY 4309-S should be briefed and the extent of such briefing. If NY 694-S\*'s physical condition is such that he cannot undertake this project, CG 5824-S\*, who has met NY 4309-S, could handle this briefing if NY 694-S\* concurs.

CG 5824-S\* also advised that some time in the near future he and NY 694-S\* must jointly prepare a message to be sent to the Russians on this matter wherein they should consider setting forth certain background information on this possible insertion into the Solo apparatus. Logically, such type of a communication cannot be transmitted until HALL's meeting with NY 4309-S and then only if he gives his final and formal approval thereto. *Make sure to get his name in file*

Following successful completion of the foregoing, then it will be necessary to undertake the final step--that is, the personal discussions with the Russians on this matter. Obviously, according to CG 5824-S\*, the person the Russians would desire most to see and discuss this matter with, because of his technical background and detailed knowledge of the communication apparatus, would be NY 694-S\*. However, it may be that NY 694-S\*'s personal physical situation might preclude his travel and participation in such a meeting. If NY 694-S\* should be precluded from this undertaking, CG 5824-S\* advises that he saw no other alternative but for him to travel although he noted he has his own serious physical problems and, in addition, lacks the overall technical knowledge of problems which are familiar to NY 694-S\*. However, the source felt that the Russians would talk to him regarding this matter and that it could be favorably resolved if he found it necessary to travel himself. According to the source, it will be entirely up to NY 694-S\* as to how this matter will be finally resolved and he does not want to push NY 694-S\* or give that individual any feeling that CG 5824-S\* is attempting to replace him in an area where NY 694-S\* is best qualified.

When GUS HALL, General Secretary, CP, USA, visited Bulgaria during 10/66 as part of his recent "world tour," he appeared on television in Sofia. Following this television appearance, the Bulgarian CP presented HALL with a portion of the film made of that television appearance. HALL turned the film over to CG 5824-S\* and the latter arranged to bring this film back to the U.S. and now has provided the Chicago Office with this film.

Inasmuch as the Bureau may desire to review this film and prepare a copy thereof, it is being enclosed herewith. This film is being furnished in the original form and package that it was received from the Bulgarians. When the Bureau has completed its review and reproduction, if desired, it is requested the film be returned to Chicago so that the source may transmit it to GUS HALL. REC-19

INTERNAL SECURITY - COMMUNIST

This is to advise you of the progress being made relative to inserting NY 4309-S\* into the Solo apparatus. *WGS*

In early October, 1966, while in the Soviet Union, Gus Hall, General Secretary, Communist Party, USA, met with officials of the Security Branch, International Department, Central Committee, Communist Party of the Soviet Union. On that occasion, the Soviet officials noted they were aware that NY 694-S\* was in poor health. They indicated they were now prepared to consider a helper for NY 694-S\*, who operates the clandestine communication apparatus between the Communist Party, USA, and the Communist Party of the Soviet Union. The Soviets told Hall that, when NY 694-S\* was ready to introduce a helper into the apparatus, NY 694-S\* should come to the Soviet Union to discuss this matter. Hall agreed to this, but stated, before anything of this nature takes place, he desired to first pass judgment on the suitability of the helper. *5-Shaper*

The suggestion of the Soviets that consideration be given toward obtaining a helper for NY 694-S\* has afforded us the long-awaited opportunity to insert NY 4309-S\* into the Solo apparatus. NY 4309-S\* has an excellent background for this assignment. Informant was active in the 1930's in the *b7D*

[redacted], and [redacted] in several European countries. NY 4309-S\* has retained contact with the Communist Party over the years, and was well known to Eugene Dennis, deceased former Party leader.

Hall advised CG 5824-S\* that he desired to meet NY 4309-S\* prior to utilizing this individual in the apparatus. However, Hall stated that, in view of the forthcoming meetings of the Party's National Board and National Committee, he would not be able to meet with NY 4309-S\* until late December, 1966.

ReBulet dated November 23, 1966, captioned "CG 5824-S\*" and "CG 6653-S," authorizing cash awards of \$1,000 to CG 5824-S\* and \$500 to CG 6653-S, and enclosing letters from the Director to these informants commending them on meritorious achievements in connection with the 21st Solo Mission.

On November 25, 1966, I met with both CG 5824-S\* and CG 6653-S. At this time, I personally presented the Director's letter together with the award of \$1,000 to CG 5824-S\* and I also presented to CG 6653-S the Director's letter and award of \$500. Both CG 5824-S\* and CG 6653-S were deeply moved after reading the Director's letters which set forth his appreciation of their joint efforts on behalf of our country and the FBI and his concern for their personal welfare. Both individuals requested that I convey to the Director their warmest personal regards and sincere appreciation for the "most wonderful letters" as well as for the monetary awards.

Both CG 5824-S\* and CG 6653-S also requested that I again convey to the Director their mutual hopes and desires that the future will continue to bring forth continuing success for our endeavors and that in some small way they can continue to play a role in the successful struggle against those who would destroy our nation and our way of life. They both desired that the Director be reassured that they do not treat lightly the responsibilities they carry and will continue every effort to justify the high estimation of them which the Director expressed in his letters.

After having exhibited the Director's letters to the informants, they were returned to me and have now been placed in Bureau files for safekeeping.

This is to recommend that the White House be furnished information obtained by CG 5824-S\* revealing that officials of the Soviet Security Branch are endeavoring to obtain personal data pertaining to Presidential Press Secretary Bill D. Moyers and former Presidential Aide Jack Valenti. *SC*

CG 5824-S\*, who accompanied Gus Hall, General Secretary, Communist Party, USA, on an extended tour of several Eastern European countries, including the Soviet Union, has furnished the following information.

While in the Soviet Union in the early part of October, 1966, Gus Hall and CG 5824-S\* were summoned to a meeting with leading officials of the Soviet Security Branch. After the Soviet officials had discussed various aspects of the clandestine Solo apparatus, they inquired about the personal backgrounds of Moyers and Valenti. The Soviet officials indicated they had a lot of public source data on Moyers and Valenti but desired to know more about their personal backgrounds. The Soviet officials posed such questions as: "How many children does Valenti have? How close is Valenti to the President today? What is Valenti's new job? What are his duties? What are the details concerning Valenti's personal background?" The Soviet officials also asked similar questions regarding Moyers. *6*

Neither CG 5824-S\* nor Hall were able to supply specific answers to any of these questions. Hall, however, promised that, upon his return to the United States, he would try to get more information for the Soviets "through his contacts."

The Soviets did not indicate why they were interested in Valenti and Moyers. CG 5824-S\* conjectured that the Soviets were interested in these people because they were close to President Johnson and may be contemplating travel to the Soviet Union. CG 5824-S\* felt that possibly the Soviets were trying to ascertain whether statements emanating from Valenti and Moyers could be relied upon as echoing some semi-official opinion.

*JACK* *D.C.*  
It is noted that both Moyers and Valenti, who is currently President, Motion Picture Association of America, have been the subject of unsubstantiated charges alleging immoral activity in the past. It is possible that the Soviets may have in mind some type of smear tactics against these individuals. We will be alert to such a possibility.

A source, who has furnished reliable information in the past, during November, 1966, advised as follows:

When Gus Hall, General Secretary of the Communist Party, USA (CP, USA) toured the German Democratic Republic (GDR) during September, 1966, as part of his world tour, the Central Committee, Socialist Unity Party of Germany (SUPG), assigned him a translator identified as Ursala Hertzberg. This same individual previously had acted as translator for Henry Winston, then a Vice Chairman, CP, USA, when that individual visited the GDR during the Spring of 1966.

Hertzberg is a woman of approximately 40 years of age and is currently employed by the Government of the GDR as a prosecutor in juvenile court. Her legal training for this task consisted of an eighteen-month intensified government course.

As a child, Ursala Hertzberg was taken to Great Britain as a refugee from Nazism. She returned to Germany after the SUPG had come into power. Her mother, a Jewess, was a victim of the Nazis and died in a concentration camp. Because of the fact that her mother was a victim of the Nazis, Ursala Hertzberg, as a surviving child, has received

special reparations consisting of a thousand marks from the GDR. In addition, she will also be entitled to early retirement at age fifty-five on an eight hundred marks-a-month pension. She also receives other special benefits which include three extra paid vacation days a year.

Ursala Hertzberg has reportedly been connected with the communist movement for a substantial portion of her life and allegedly while in Great Britain had been involved in the Young Communist League there. Her return to the GDR at the request of the SUPG was a voluntary one on her part although she acknowledges that the decision to return had come initially with some reservation.

During the period of time she spent in Great Britain, Hertzberg apparently had met and was associated with Horst Brasch, another German refugee living in Great Britain. Brasch also had returned to the GDR and is now a member of the Central Committee, SUPG.

Title: The Interview Granted by Comrade Gus Hall, Secretary  
General of the Communist Party of the U.S.A. to the  
Newspaper "Scinteia"

On the occasion of the visit made to our country, at  
the invitation of the Central Committee of the Romanian  
Communist Party, Comrade GUS HALL, Secretary General  
of the Communist Party of the U.S.A., answered several  
questions asked by the newspaper "Scinteia," within the  
framework of an interview granted to Comrade I. CUMPANASU,  
Deputy Chief Editor of the newspaper.

QUESTION: What are the principles of the decision and the  
objectives established by the 18th Congress of the Communist  
Party of the U.S.A.?

ANSWER: I wish to express on this occasion my gratitude for  
the possibility accorded me to visit Socialist Romania and to  
thank the Central Committee of the Romanian Communist Party for  
the invitation.

Of course, the main problem put before our Congress in  
June, as an urgent problem, was the escalation of the imperialistic  
aggressive war in Vietnam. The Congress considered that its  
main and immediate duty is the maximum mobilization of all the  
forces in the U.S.A. which oppose this aggression. To mobilize  
all the forces which belong to all the groups and social classes,

ENCLOSURE

100-428091-5959

because the interest of all the groups of the American people are affected by this aggressive war. In the second place, the Congress decided that its strategic objective is the liberation of the country from under the yoke of the capitalist monopoly. Our country finds itself squeezed by the capitalist monopoly more than any other country in history. In order that U.S.A. may continue on its road for progress it will be necessary to implement this strategic objective. From a strategic point of view the antimonopolistic struggle in the U.S.A. at the present time occupied in the activity of our party the same place which occupied the decisions taken by the 5th Congress of the Romanian Communist Party, and the activity of your Communist Party in the respective period. Concerning the strategic objective the party established concrete duties. The masses of the people are first of all mobilized in the fight for peace and in the anti-imperialist struggle which is tied to the antimonopolist struggle. In the second place, we take into consideration the fight for civil rights and for the equality of the Negro population which is tied to the fight against monopolies. In the third place, we direct our efforts towards the economic struggle of the workers, especially in connection with the effects which automation has on the working people and its ties with the antimonopolistic struggle. Finally, in a general way, the Congress decided on all these forms of struggle as the only way in the fight for socialism. This is the way in which the program of our party was published and it was approved by the Congress.

The Congress was a great event in the life of our party and an important political event in the life of our country. This is because the Congress marked the transition of the party from a semi-illegal or illegal party to a legal party. Also because in the U.S.A. the fight for democratic rights of all the people is closely tied to the rights which are possessed by the Communist Party to function. The force of our struggle for legality resides in the fact that the large masses of the people understand this tie. The importance of the Congress was also noticed by the ample publicity given to the works of the Congress by television, radio and press.

QUESTION: How does the Communist Party of the U.S.A. appreciate the present situation and the organizational objectives and the consolidation of the leftist forces in the United States?

ANSWER: In the first place, it is important to understand that in the new stage of the general life of the United States a gigantic mass movement was born. This stage has been determined by the following factors: The Soviet Union broke the atomic monopoly. Until that moment the American imperialism felt very strong due to the nuclear arm monopoly. The second factor which changed the situation was the appearance of the world socialist system. The third factor has been that the main capitalist countries developed into main competitors of the United States. The final factor which led to a new situation in our country was the appearance of automation in industry. And in an industrial nation such as the U.S.A. this was an event full of drama. This process began in the coal industry in which we have 700,000 miners. This number was valid for the period before automation. Now we have only 125,000 miners and the coal production is the same as before. The social effect of automation is beginning to feel also in the steel industry, in all the other industrial enterprises which, of course, changes fundamentally the employment situation. The automation effects were very drastic in two groups of endeavor: Among the young people because the employment was almost completely closed to them and among the American Negroes because the automation replaces especially the unskilled laborer. This explains the reason for the mass movement in the United States. The same situation has led also to the appearance of the struggle for the civil rights of the Negroes in our country. This explains the reason why the young American generation may truly be branded as the "generation in revolt." In the last years millions upon millions of Americans have been engaged in the struggle. We have in the average a thousand strikes each day.

Since the American atomic monopoly was broken by the Soviet Union and the masses have been forced to accept the reality that in event of a nuclear war the United States will be one of the most exposed centers, everything that is connected with the problem of war and peace has become a problem of life

and death for millions of people. As a result of all these factors a strong progressive left movement developed. Although our party was illegal or semi-illegal it assumed the responsibility to lead this leftist movement. And we are very proud that in the last few years our party has become one of the most important factors of this movement, especially of the youth leftist movement. This explains why our party has been successful in winning several judicial victories. If we wouldn't have undertaken this mass struggle we wouldn't have been able to win these victories. Through this mass struggle the party will gain new positions for its full legal recognition.

I wish to add another idea. The automation in American industry brings to the surface the sharpest conflict which exists between labor and capital in the course of history, because this struggle could not be won by a single union or one industrial enterprise, due to the fact that the automation is a factor which affects the entire social structure of the country. To note is also the fact that a struggle cannot be won only in the economic domain. Because of this the labor movement and the union movement are marching in the struggle of the political domain. In the movement and the struggle of the antimonopolist forces this confrontation between labor and capital would be a very important factor.

QUESTION: How do the groups of people of the American population manifest themselves concerning the aggressive action of the U.S.A. against the Vietnamese people?

ANSWER: In the first place, what is important is the fact that the majority of our population is against this policy. The opposition against the aggressive war in Vietnam is manifested in various ways. We have a very large and active movement against this war. Some say that this movement is without precedent in the modern history of the country because it is a movement by the masses directed against their own government. This movement must defeat numerous ideological difficulties. In spite of all this, the movement comprises different groups of the population. The largest movement is due to the fear of a nuclear war, as well as the pacifist sentiments or of revolt against the injustice of

this aggression. Together with millions of people in this antiwar struggle participate many churches and religious leaders. In full development are also the anti-imperialist forces which side with the party in demanding the complete withdrawal of the American forces from Vietnam, declaring themselves for the respect of the right of self-determination and independence. To this mass movement against the war must also be added the differences of opinion among the government leaders. There are also many groups within this dominant class which consider the aggression as being disastrous. The differences of opinion within the dominant group explains why many senators and prominent personalities, as well as many newspapers in their editorial commentaries, criticize the government policy. In brief, in view of the war escalation we must say that the situation in the U.S.A. is not at all inert from a political point of view. There exists in our country an antiwar movement which has a great importance for the world's anti-imperialist forces.

President JOHNSON uses demagogic phrases referring to the peaceful solution of the conflict by negotiations; there are also certain elements in existence which imagine that the negotiations can force the American imperialism to withdraw. In spite of the fact that the majority of our people is against aggression and in spite of the fact that a division exists within the government, this does not necessarily mean that in the present set of circumstances existing in the United States the movement could be transformed into a real political force.

The thing which is needed more than anything else is a strong world anti-imperialist movement. In this unity of the anti-imperialist forces resides the possibility not only of curtailing aggression in Vietnam, but also to establish new guarantees against any aggression. The communists of the U.S.A. and the anti-imperialist forces of our country appreciate the heroic fight of the Vietnamese people and their contribution which they render to the fight against imperialist.

QUESTION: What actions, according to your opinion, could contribute under the present conditions to the normalization of international relations and the creation of a climate of peace and security in the world?

ANSWER: It is evident that the main obstacle to the normalization of the world relations is the aggressive American imperialist policy. To this we must also add that on the European scene, Western Germany, under the tutelage of American imperialism, remains an obstacle to the establishment of peaceful relations in Europe. I don't see this as a lost situation because based on what I have said so far it appears clearly that the American imperialism can be crushed, restrained. There are in existence the progressive forces which comprise the working class, the anti-imperialist forces, the anticolonial forces and the socialist forces. The unity of all these forces is necessary to be developed in accordance with the relations of our era. It may be necessary that a new, long road be built for the realization of this unity; however, in order to crush the imperialist forces the unity of the progressive forces is indispensable.

The true sense of the fight for peaceful coexistence is to mobilize the progressive forces to crush the imperialist forces. The unity is the main fighting weapon on the international scene. In this sense the world socialist system is a decisive factor. The policy of the socialist countries which find themselves beside the anti-imperialist forces, together with the nations in their fight for the normalization of relations among states, makes the socialist country a bastion of progress and anti-imperialism and peace.

In conclusion, I wish to say that it is a great honor for me to have this interview granted to such a press organ as the newspaper "Scinteia." I know that this newspaper plays an important role due to its revolutionary tradition from which it derives its force. Because of this I am happy that I had the privilege to address myself through its intermediary to the millions of readers of your country.

"Dear Bill,

"Thanks a lot for your last enclosure regarding the comrade who was murdered in Venezuela. I immediately gave this to our editor, and he tells me that this was published in "The Worker" last March.

NORTH AND SOUTH AMERICAN SECTION, INTERNATIONAL  
DEPARTMENT, CENTRAL COMMITTEE, COMMUNIST PARTY  
OF THE SOVIET UNION

In November, 1966, a source, who has furnished reliable information in the past, advised as follows concerning the North and South American Section, International Department, Central Committee, Communist Party of the Soviet Union (CPSU):

Nikolai Vladimirovich Mostovets

U.S. / As of September, 1966, Nikolai Vladimirovich Mostovets held the position as Head of the North and South American Section, International Department, Central Committee, CPSU. In his capacity as Section Chief, Mostovets has the responsibility for all CPs and countries in North and South America with the exceptions of Canada, which is assigned to the section dealing with Great Britain and the British Commonwealth nations, and Cuba, which is now handled separately because of its status as a socialist state.

Mostovets speaks English fluently and has traveled to the United States on at least one occasion. He is a man of about 5'8"-9" tall, is of medium build, and weighs about 160 pounds. He is probably in his late forties or early fifties. His hair is brown and thinning and he has a definite widow's peak. He wears glasses. Mostovets is married and lives in an apartment development in Moscow, USSR, which was specifically constructed for the housing of Central Committee, CPSU, workers.

Sema Kuznetsov is known to have worked in the International Department since at least the late 1950's and has handled both confidential and technical matters for the North and South American Section. At the present time she holds the important position of Personal Secretary to Mostovets and is highly respected as a worker. Her telephone number at the International Department was last provided as K6-27-29.

Kuznetsov is a woman presently about 45 years of age. Her husband died in action during the "Great Patriotic War" (World War II) and she has never remarried. She speaks English fluently and is believed to have speaking ability in some other languages.

Igor Viktorovich Mikhailov has worked in the North and South American Section, International Department, since the early 1960's. When first identified with the North and South American Section, he was acting as a translator. He is fluent in both the English and Spanish languages and speaks a number of other languages. He has always been highly regarded as a translator and, as an indication of this, it is known that he acted as official translator for Fidel Castro of Cuba when that individual visited the USSR in approximately 1963. He also has worked as a translator with leading CP, USA representatives like Elizabeth Gurley Flynn, former Chairman, CP, USA, now deceased, and the present Chairman of the CP, USA, Henry Winston, when such individuals were visitors to the USSR.

During the past several years, Mikhailov has taken a more important role in the North and South American Section as an activist and has had fewer translator assignments. His concentration and work have now turned to a study of United States trade union and labor matters, and he was working to become an expert on United States affairs in general. While it has not been so stated specifically, it appears that Mikhailov has now taken over many of the duties that were

formerly handled by Aleksei Andreevich Grechukhin who was for a long period identified as Chief Assistant to Mostovets and the person responsible for relations with the CP, USA. Grechukhin has now permanently left the North and South American Section, International Department, and is reportedly a professor in the CPSU High Party School. As of September, 1966, Mikhailov was then devoting almost total time to the affairs of the CP, USA and matters pertaining to the USA. He was also responsible for a number of confidential matters dealing directly with relations between the CPSU and the CP, USA.

Mikhailov appears to be in his mid-thirties. He is approximately 5'9" tall and weighs about 155 pounds. He has dark hair which he combs straight back. He wears glasses. He is rather handsome and dresses quite well. For a long time Mikhailov attempted to leave the impression that he was single, but this is not so. His wife apparently works for a Soviet Government tour agency and in September, 1966, she was leading a tour group of Soviet citizens in a visit to Hungary.

As of October, 1966, it was reported that Mikhailov was contemplating a visit to the United States in the immediate future, possibly November, 1966, as a member of a delegation of an undisclosed nature. However, as of November, 1966, no information had been received that Mikhailov had yet arrived in the United States.

The telephone number in the North and South American Section utilized by Mikhailov is K6-24-31.

He continued in this capacity until at least 1961. Although young and probably only in his twenties at the time, Vorontsov reportedly had served in diplomatic establishments which included the United States and Burma in an unknown capacity. During 1961 and 1962, Vorontsov was concentrating on United States affairs. For the past several years Vorontsov has not been known to be active in the North and South American Section, International Department, and has not been observed at functions attended by

Andre Urnov

*USSR* Andre Urnov was first identified as an employee of the North and South American Section, International Department, in the early 1960's when he was also being utilized as an English translator, a field in which he was outstanding. Later, Urnov became an activist in the North and South American Section and devoted much of his time to United States affairs. In early 1966 Urnov reportedly was considering a trip to the United States; however, it is not known whether this trip did materialize. *C.P. USSR MEMBER BAPP 1926-86*

Urnov is about 5'9" tall, medium build, and weighs about 160 pounds. He has dark hair. He appears to be in his early thirties.

In September, 1966, it was learned that Urnov was no longer assigned to the North and South American Section, International Department; however, he was still an activist in the International Department. He had as of that time been reassigned to the section of the International Department which deals with African problems.

*USSR* Aleksey N. Mineyev

*C.P. USSR MEMBER* As of October, 1966, this individual was still considered an activist of the North and South American Section, International Department, although his specific responsibilities are unknown. It is assumed, however, that his primary field of activity is related to Latin American affairs since he has been observed in contact with comrades from such Parties. In September, 1966, Mineyev was present at a meeting of leading activists of the International Department, Central Committee, CPSU.

*USSR* Dimitriy Diakonov

Both of the above-noted females were as of 1966 still considered as staff members of the North and South American Section, International Department. They have been identified by name but their specific duties are unknown other than they are not involved in matters pertaining to the United States or CP, USA.

Alexey Maslivaikin  
Igor Rybalkin

Both of these individuals have within the past year been identified by name as employees of the North and South American Section, International Department. Their specific duties are unknown but it is assumed they both work on Latin American matters since they have not been involved in problems relating to the United States or CP, USA. Their names have also been mentioned in connection with contacts with leading representatives of the Latin American Parties when such people were in Moscow.

Andre Mikhailovich Sivolobov

Andre Mikhailovich Sivolobov was known at one time to have held an important activist position in the North and South American Section but for the past several years has not been observed working in the section. He was not at a meeting of the leading activists from the International Department held September, 1966.

TO : DIRECTOR, FBI (100-428091)

DATE: 12/6/66

FROM : SAC, CHICAGO (134-46 Sub B)

SUBJECT: SOLO  
IS-C

ReCGairtel dated October 28, 1966, and enclosed informant's statement captioned, "Summary Information Concerning Visit of Gus Hall, General Secretary, Communist Party, USA, and Communist Party, USA Delegation to the German Democratic Republic, September 5-9, 1966."

In connection with the above-noted visit of GUS HALL to the German Democratic Republic (GDR), September 5 through 9, 1966, the Socialist Unity Party of Germany (SUPG) covered many of HALL's activities through official photographs which were turned over to CG 5824-S\* on the delegation's departure from the GDR. These photographs were to be returned to the U.S. and turned over to GUS HALL as a record of his visit to the GDR. Prior to CG 5824-S\* providing these photographs to HALL, the source made them available to the Chicago Office and copies were made thereof.

Enclosed herewith for the Bureau is one set of these photographs (10) and one set is being retained by the Chicago Office.

In regard to the above photographs, Chicago desires to point out that utmost caution must be utilized in connection with any possible contemplated use thereof since only CG 5824-S\* and GUS HALL are known to possess them at this time. While one of these photographs did appear in an issue of "The Worker" and in an issue of "Neues Deutschland," official organ of the Central Committee, SUPG, the remainder have not been publicized in any manner, and a disclosure at this time of the possession of these photographs by the FBI could seriously jeopardize this informant.

For purposes of identification, the enclosed photographs have been numbered on their reverse side. The identification of individuals appearing in these photographs, made by CG 5824-S\* as follows:

Re NY airtel, 11/29/66.

On 12/5/66, CG 5824-S\* advised that on 12/2/66, ARNOLD JOHNSON furnished him the following information:

*[Handwritten signature]*

The reason why ARNOLD JOHNSON had been invited by the Soviets to go to the USSR Mission on December 1st or 2nd, was that the Soviets at the said Mission had received from the Soviets in Moscow a number of presents for delivery to GUS HALL. The Soviets at the UN Mission desire that ARNOLD JOHNSON obtain a truck and take the same to their Oyster Bay establishment to pick up the said presents for GUS HALL.

ARNOLD JOHNSON stated that as soon as possible after the current National Committee meeting is over, he will comply with the Soviets' request.

Re NY airtel, 11/15/66, page 2, paragraph one.

Said airtel reflects that the Soviets had advised they had a message for GUS HALL at the USSR Delegation to the UN in New York City and desired that JAMES JACKSON or ARNOLD JOHNSON go to the Delegation between November 16th and 18th to pick up the same.

Regarding the above, ARNOLD JOHNSON stated that he had gone to the Soviet UN Mission, where there was read to him a Soviet document, the contents of which was being furnished to the leaders of the important Communist countries in the world. He stated that the Soviets had prepared this document in order that there might be no distortion of the facts regarding the recent meeting between Soviet Foreign Minister GROMYKO and President JOHNSON. The document reflected that the conversation between GROMYKO and President JOHNSON concerned the Vietnam situation and that the Soviets had suggested that the United States negotiate with the Vietnamese and possibly with the Chinese for settlement of the war. GROMYKO had suggested the cessation of bombing by the United States, and discussed the proliferation of nuclear weapons. The conversation also concerned improvement of relations between the USSR and USA. The document further contained a condemnation of false rumors circulated about such meetings as that between GROMYKO and President JOHNSON. According to ARNOLD JOHNSON, the Soviets at the UN Mission had stated that it had been anticipated that the "New York Times" would distort the facts concerning the meeting between GROMYKO and President JOHNSON and that they desired that before such distortion might be made, CP leaders throughout the world know the true facts concerning the said meeting.

ARNOLD JOHNSON also advised CG 5824-S\* that the US Administration's policy of ignoring the various so-called peace operations of the Party and liberal groups was causing great concern. It was felt that by ignoring these peace operations, the Government was placing peace organizations in the embarrassing position of receiving no publicity

NY 100-134637

concerning their activities. This was considered a matter of grave concern.

CG 5824-S\* advised that he was in telephonic communication with NORMAN FREED, Canadian CP functionary. FREED advised CG 5824-S\* that he would come to New York, probably on 12/8/66, to confer with the CPUSA regarding the proposed CPUSA - Canadian CP joint leadership school that will be held in the near future in Canada.

TODOR L. SCHAAPCHIEFF, ALSO KNOWN AS  
(FIRST NAME UNKNOWN) NESTOR, STEPFATHER  
OF DOROTHY HEALEY

When the Communist Party, USA (CP, USA) delegation, headed by GUS HALL, General Secretary, CP, USA, was in Sofia, Bulgaria, in early October, 1966, a telephone call was received from TODOR L. SCHAAPCHIEFF, also known as (first name unknown) NESTOR, the stepfather of DOROTHY HEALEY, head of the Southern California District of the CP. SCHAAPCHIEFF, who has been in Bulgaria for a number of years, requested that HALL visit him in order that he might discuss a problem. HALL, however, did not want to become involved and therefore ARNOLD JOHNSON made contact with SCHAAPCHIEFF. Later, JOHNSON reported that all SCHAAPCHIEFF desired was that HALL and the CP, USA delegation use their influence with the Bulgarian CP to attempt to arrange that he get an apartment or a room for his own personal use. For the past many years SCHAAPCHIEFF has been sharing living quarters with a number of other individuals and is now getting old and desired his own personal quarters. This request was relayed to the Bulgarian CP but subsequent results of this request are unknown.

## NOTE:

In connection with the Solo case, we maintain a cover office at 17 Battery Place, New York City, where important messages are prepared and exchanged by NY 694-S\*. This cover is vital to the success of the operation and has proved to be a definite asset. To maintain this office, we must operate as any other tenant in the building and contribute to the Christmas Fund of the building employees. To do otherwise would cause talk and suspicion and undue interest in the activities of this office which would be detrimental to our operation.

DATE: 12/7/66

The NYO is in receipt of a letter from the ~~Sheraton Whitehall Corporation~~, owners of the building at 17 Battery Place, NYC, where a cover office is maintained by the NYO. Said communication reflected that it is expected that all tenants of the building will contribute to the Sheraton Whitehall Building Employees' Christmas Fund. 24

Upon consultation with Mr. WILLIS, Manager of the Sheraton Whitehall Corporation, it was ascertained that with respect to an office such as is maintained by the NYO, the usual contribution to the aforesaid fund is \$25.00. Since the NYO feels that it is necessary to maintain good relations with the Sheraton Whitehall Corporation, it is requested that the Bureau authorize the payment of \$25.00 by the NYO to the Sheraton Whitehall Building Employees' Christmas Fund.

ReCGairtel dated November 4, 1966, and enclosed informant's statement entitled, "Summary of Information Concerning Visit of Gus Hall, General Secretary, Communist Party, USA, and Communist Party, USA Delegation to USSR and Finland, August 17 Through September 5, 1966."

Page 8 of referenced informant's statement notes that on September 1, 1966, GUS HALL and the CP, USA delegation traveled to Sevastopol where the male members of the delegation were taken aboard the USSR Cruiser "Michael Kotuhev" which is based at the Sevastopol Naval Base and is the flagship of the Black Sea Fleet. In connection with this visit to the Cruiser "Michael Kotuhev," a number of official photographs were taken and subsequently turned over to CG 5824-S\* to bring back to the United States and present to HALL as a record of this event. However, prior to providing such photographs, totaling six in number and considered by the Communist Party of the Soviet Union to be highly confidential, to HALL, CG 5824-S\* made them available to the Chicago Office and copies were made thereof.

Enclosed herewith for the Bureau is one set of the above-noted photographs and one set is being retained by the Chicago Office.

In regard to the above photographs, the Chicago Office desires to point out that utmost caution must be utilized in connection with any possible contemplated use of them since only CG 5824-S\* and GUS HALL are known to have possession of same at this time. None of the photographs enclosed have appeared in any type of public source material and, therefore, a disclosure of possession thereof could seriously jeopardize this informant.

DUES PAYMENTS RECEIVED FROM FORMER AMERICANS,  
PRAGUE, CZECHOSLOVAKIA, SEPTEMBER, 1966

In September, 1966, John Vafiades and his wife Evelyn and George Wheeler and his wife Eleanor, all former Americans now residing and working in Prague, Czechoslovakia, paid dues to a representative of the Communist Party, USA (CP, USA) who was then in that city. The dues paid by these individuals totaled 500 Czech koruny and represented CP, USA dues for the Vafiades' through December, 1966, and for the Wheelers through October, 1966. Inasmuch as these dues payments were received in Czech koruny, they could not be freely exchanged into United States currency in Prague and the money was, therefore, spent to purchase items in Prague for Gus Hall, General Secretary, CP, USA, and his wife Elizabeth, who were also in that city at the time.

## Who Are the Perpetrators of the Recife Attack?

The growing difficulties of the clique which has seized power to hold on to it and to implement its anti-national and antipopular policies are causing it to step up its reaction by violently suppressing popular and student movements, by attacking progressive Catholic circles and by trying - on the other hand - to give the dictatorship a semblance of law through a so-called Constitutional Charter and new Fascist laws.

In an attempt to win these objectives, all efforts are made to initiate a wave of anticommunist hysteria. The bombs at Recife last June are an episode of these coarse provocations. The echo of the explosion at Guararapes Airport (the place of the bombing) had hardly died out when Mr. Costa e Silva, candidate to the dictatorship (who by a miracle at the very last minute decided to go by automobile instead of by plane), stated to the press, as if he were gifted with soothsaying powers: "The communists are the masterminds and organizers of the bombing. They have an interest in creating an atmosphere of national agitation." Juracy Magalhaes, a well-known agent of American imperialism, stated with his habitual cynicism: "I believe that the explosions are the implementation of the decisions reached at the Tricontinental Conference of Havana. The communists have no hopes to win successes in their struggle for power. So, they carry out individual attempts and terrorist acts." The very same words were used, throughout the country, by the various gorilla generals who occupy more or less prominent positions, by the "politicos" of the Armando Falcão and Pedro Adleixo ilk and by the many scribes hired out to the dictatorship.

As revolutionaries who struggle determinedly for complete national emancipation and social progress and as revolutionaries who, from the very first moment, have waged a battle to the last blood against the reactionary and pro-imperialist military dictatorship of the plotting generals, the communists have never resorted to individual attacks, a method which they oppose and have always fought against. In a recent "Political Resolution," the Central Committee of our Party stated: "The process of isolation and defeat of dictatorship is intimately bound with the development of the mass struggle and unity of action of the forces contrary to dictatorship."

Now, individual terrorism is incompatible with the mass movement and entails, as its political consequence, a division of the working class and the formation of a climate favorable to anticommunism which makes the action of communists among the masses of workers at large more difficult. As great Lenin taught us as early as 1902, individual terrorism "has no relation to the work among the masses and for the masses and does nothing for the contact with the masses," "it diverts our organizational forces....from their difficult task of organizing a revolutionary workers' party," and "is nothing more than an individual combat method completely condemned by historical experience."

One thing is certain: In our country, such terrorist acts have never been perpetrated by political organizations whose ranks and files come from the people, or by left-oriented political organizations. On the contrary, these terrorist acts have always had their origin in rightist organizations, such as the integralists (Brazilian Fascists) and, more recently, the pro-Lacerda clique, the colonels of the "hard line" (extreme right) and MAC (Anticommunist Movement led by Admiral Heck). Furthermore, at Recife a certain Police Commissioner is very well known as a specialist in setting up bombing attacks. And if we bear in mind international historic experience, suffice it to recall that it was the crime of arson at the Reichstag, attributed by Goebbels to the communists but in reality prepared and provoked by the Nazis, which was used to trigger off savage repressions against the proletarian and democratic forces of Germany.

In spite of their sinister provocation, the killers of liberty were unable to obtain the desired results. The first question which flashed in the minds of millions was: Who profits from the crime? The answer which sooner or later became apparent to nearly all of them was always the same: Those who are interested in continuing the present situation; those who strive to continue keeping the Brazilian people in handcuffs; those who oppose labor union freedom; those who repressed the UNE (National Student Union) Congress; those who prohibit the dissemination of the manifesto by the Bishops of the North East; those who keep Gregorio Bezerra in jail (he is the ex-communist Deputy and peasant leader who has been in prison since April, 1964.) On the other hand, this is the reason why the bomb was immediately called in Recife the Murici bomb (he is the military commander of the region) and in the rest of Brazil, the bomb of the dictatorship, Castelo Branco's bomb.

## **The November 15 Elections**

Despite the doubts which still persist on the subject of the elections of the Municipal Councils and of the Senate, a number of objective factors have thus far forced the dictatorship to respect the holding of the elections scheduled for November 15.

Even though the restrictions imposed on the choice of candidates are great, the Communist Party, which takes part in the popular struggle for the holding of direct elections, is working hard to convince the electorate of the need to use the ballot to inflict a defeat upon the government, by stating its opposition to the candidates sponsored by ARENA, the political organization which embodies the dictatorship.

The organizations of the Communist Party in the various States and Communes have entered into certain agreements with the representatives of MDB (Brazilian Democratic Movement), a political "opposition" organization created and tolerated by the dictatorship which includes political personalities who enjoy popular prestige and whose candidates, whether communists or not, deserve the vote of democratically-minded people and patriots.

The communists, while indicating the candidates of their choice accepted by Electoral Justice, call, at the same time, on the people to cast their ballots only for those candidates who really take a position against the dictatorship and state that they are ready to struggle for a repeal of the dictatorship's reactionary decrees and for the re-establishment of freedoms, including the liberation of political prisoners and a general amnesty.

The Communist Party is convinced that the elections, despite the restrictions which have been imposed upon them, can make a contribution to the advancement of unity and the organizing of the forces which oppose the dictatorship.

## **New Contradictions Undermine the Dictatorship**

The list of generals who took part in the "coup d'etat" and who are withdrawing their support, turning against the dictatorship in power, is becoming longer and longer. Nevertheless, the recent gesture of General Amauri Kruei, the last general to become disenchanted with the "democratic revolution," is of an importance which is by far greater than that

✓ of any previous cases. He is the Commander of the Second Army, whose headquarters is in Sao Paulo. The general is a very close friend of Ademar de Barros, former Governor of the State, so much so that their relationship is very much like a conspiracy. The general enjoys tremendous military prestige within the three branches of the Armed Forces. His support for the coup d'etat a few hours before it was staged was, without doubt, an instrument in guaranteeing its success.

for the ✓ General Kruehl's latest position against the ruling clique places the government on the defensive. It will certainly have its repercussions within the Armed Forces. It constitutes a valuable reinforcement for the activities of the opposition. At any rate, it is undeniable that it adds a further element of instability to the shaky foundation of the government.

However, this is not all. In his thirst for power, Castelo Branco is multiplying his arbitrary acts which alienate everybody, including his closest associates. A recent example is the further curtailment of the few prerogatives which Parliament had left. The role of Parliament is being further reduced in matters concerning the Budget and in matters concerning the promulgation of a New Constitution. On the other hand, an electoral process from our shameful past, which everybody condemns, is being revived and officially imposed.

An influential paper, completely above suspicion, the "Journal of Brazil," which has been delving into the present economic policies, summarizing the ills of the country and the general state of apprehension, states: "All important segments of national life do not hide their displeasure with the errors which have been committed." It goes on to predict: "In a climate of political excitement, which includes the active presence of soldiers, the latest chain of events can produce sparks capable of igniting an explosion in an atmosphere impregnated with gun powder." (Journal of Brazil, August 11, 1966). This is an opinion which cannot be disregarded. The fact remains that the Castelo Branco Government despite its enormous unpopularity, will not collapse by itself. The only means whereby this can be done is by taking advantage of the contradictions which weaken it, by working for and with the popular masses at large, by organizing them and by preparing them for the struggle in conjunction with all the forces of the opposition. This is the only way the dictatorship can be defeated and replaced with a democratic government.

## The "Wide Front"

and this ✓ In the face of the government's growing unpopularity and the weakening of its grassroot support, the country witnesses the birth of an attempt to form a wide front against the dictatorship, a front which has been aptly named "Wide Front." Its purpose is to group the forces headed by Juscelino Kubitschek, Joao Goulart and, possibly, Janio Quadros - the three former Presidents of the Republic who were deprived of their political rights. The front also includes the forces of Carlos Lacerda and the left.

Several meetings have taken place and preliminary agreements have been made, which made it possible to send emissaries to Lisbon and Montevideo to ask for instructions from Kubitschek and Goulart.

A front of this kind, which is made up of heterogeneous and formerly antagonistic forces cannot be put together without difficulties and occasional resistance. Many look at Lacerda with distrust and the ex-Presidents, without refusing his company, have refused his appeal to use arms and his quest for the leadership of the movement.

Nevertheless, all these forces see that the moment has come for them to close ranks in order to win their goal: the redemocratization of the country. From this standpoint, the attempt - or other attempts which are likely to follow one another - stands a chance of success.

On this subject, the position of the communists is quite clear and is nothing new. They do not refuse the dialogue and even the alliance with all forces that are desirous to give back to the nation its lost liberties. It goes without saying that the communists do not cherish any illusions and evaluate the various forces at their proper value. What is important is for this wide front to be provided with a good program and to be able to depend on the support of the working masses. It is in this direction that the communists are bending their efforts.

## Students Take to the Streets

In the main universities of the country - Sao Paulo, Belo Horizonte, and Porto Alegre - and also in other centers of

lesser importance, students have taken to the street in tens of thousands despite the prohibition and threats of the government and the police. Guided by UNE (National Student Union), the only legitimate organization they recognize, the students protested, as energetically and bravely as they know best, against the policies of the Castelo Branco Government and its crimes against the people and higher learning. Their movement is being savagely repressed by the government which has mobilized up to 20,000 men of all services and descriptions against them. Thousands of students have sustained injuries, some of them quite serious. Hundreds of students have been arrested and many have been expelled from school.

The people and all opposition forces, including many religious spokesmen, have spared no efforts to express their support and admiration for the action of these young people who, with boldness and determination, interpret the sentiments of the overwhelming majority of the nation.

#### The Church and the Dictatorship

As the Political Resolution of the Central Committee points out, an ever-increasing number of Churchmen are joining the struggle against the dictatorship and the starvation and oppression policies which are being enforced against the people.

In mid-June, following the "Regional Meeting at Recife," which was attended by two Archbishops, a statement was issued over their signatures denouncing the humiliating situation of the workers in the cities and in the country as well as the economic and social inequities affecting all workers. The Commander of the 10th Military Region prohibited the publication of the statement and launched a defamation campaign against Don Helder Camara, Archbishop of Olinda and Recife, as the principal signer of the statement. Two secret circulars and a memorandum were sent out to the priests of the North-East to accuse the prelate of subversion, demagoguery and aiding and abetting the action of the left. The goal of this "military offensive" was to set the priests against their superior, as a move within the campaign aimed at declaring Don Helder "persona non grata" in order to induce the Vatican to replace him, as was the case with Don Carmello Notta Vasconcellos, Archbishop of Sao Paulo. These shenanigans are publicly repudiated, with indignation, by the priests who call them slanderous and reaffirm their fidelity and submission to their leader.

Needless to say, most of the great religious and civilian personalities and public opinion make no mystery of their sympathy with and support for a dignitary of the Church who has been so unjustly vilified.

This position of the clergy is impregnated with great political importance. It widens and strengthens the united front of the forces whose goal is - with the support of the masses - to rout the dictatorship in power.

#### Another Assassination

A few weeks ago, a body was found afloat in the waters of the Bauiha River (which flows in the outskirts of Porto Alegre, Rio Grande do Sul). The body was in an advanced stage of putrefaction. His hands were tied behind his back. It was Manuel Raymundo Soares, a sergeant ousted from the Army after the coup d'etat on a charge of "subversion." As he was looking for a job, he was lured into a police trap, taken to prison and tortured savagely. Blinded in one eye, Manuel Raymundo was kept completely "incommunicado" in a horrible dungeon whence he was taken to an island-prison where he languished for a certain period of time. He was brought to the headquarters of the political police where the hangmen... (two lines illegible)... including "... (illegible)... a torture" which features holding the prisoner's head under water for considerable lengths of time. According to a statement by the police, the prisoner was assassinated during one of these torture sessions and his body was immediately thrown into the river.

In a touching letter addressed to his wife, Manuel Raymundo predicted his death and stated that he was ready to endure all kinds of tortures, rather than inform on his comrades. "The names of my friends," he said, "are the names of 75 million Brazilians." He ended his letter with these words: "Down with the dictatorship. Long live liberty. The people will win."

This latest crime of the dictatorship, but one of many, caused most vehement indignation and horrified condemnation. The people worship the memory of Manuel Raymundo Soares who has been fondly renamed the "Martyred Sergeant."

### New Morals

Dictator Castelo Branco is fond of stating that his government has introduced a sound administrative philosophy and new morals into public life. The following is an outstanding example:

Mrs. Emi Talyah Tosea, aged 33, was held for a long time in a horrible dungeon of the jailhouse run by the political police of Rio Grande do Sul. She became pregnant and contacted a venereal disease after she was raped by a group of policemen.

"I may expose myself to public execration, but I am determined to prove the savagery of my jailmen," Mrs. Emi Tosea declared to a Commission of Parliament. One night, after she had been beaten into utter exhaustion and defenselessness, several policemen indulged in gratifying their bestial sexual instincts.

When she was released from prison last August, she was told that she had been arrested as a warning, inasmuch as she was an accomplice in a terrorist plan. In order to buy her silence and make up for the "error," she was asked to collaborate with the police and offered 350,000 cruzeiros a month for her collaboration.

Her release did not put an end to her tribulations. She was the victim of a terrible personal tragedy. Pregnant from a monster, she felt that she should have an abortion...but hesitated to destroy the life she felt pulsating in her womb. Her maternal sentiment won the day. "I have decided to have my baby as if the baby were all mine and conceived under normal circumstances."

The new morals of the present government needs no better certificate.

VITALY G. KORIANOV, FORMER DEPUTY,  
INTERNATIONAL DEPARTMENT, CENTRAL  
COMMITTEE, COMMUNIST PARTY OF THE  
SOVIET UNION

A source, who has furnished reliable information in the past, in October, 1966, advised that as of September, 1966, Vitaly G. Korianov was reportedly hospitalized and probably would not be returning to his position as a Deputy Head of the International Department, Central Committee, Communist Party of the Soviet Union (CPSU). It was indicated at that time that Korianov would probably be reassigned to the International Commission of "Pravda," official organ of the Central Committee, CPSU, when he returned to work and would concentrate on matters relating to the United States.

In connection with the above, "Pravda," on November 4, 1966, carried an extensive article captioned, "Unification or Widening of the Split." The author of this article was shown as Vitali G. Korionov, who was described as a "'Pravda' political commentator." An English translation of this article appeared in Part II, Volume XII, N 260 (3410) Friday, November 4, 1966, Edition of the "Daily Review," published by Novosti Press Agency (APN), Puskin Square, Moscow, USSR.
